June 10, 2003

Mr. H. James Otto  
Senior Vice President  
Sid Harvey Industries, Inc.  
100 East Mineola Avenue  
Valley Stream, New York 11580

**Subject:** Sid Harvey Industries Site, V-00145-1  
Approval of the Operable Unit 1 Remedial Action Work Plan, April 2003

Dear Mr. Otto,

The public comment period for the referenced document, which ended on June 6, 2003, did not result in any comments. In accordance with the Voluntary Cleanup Program (VCP), the Remedial Action Work Plan will be considered to be final and approved when the minor comments below are addressed and copies of the final document are distributed per the voluntary cleanup agreement.

- Remaining stray references to the air sparging system should be removed. The Department will provide specific instances under separate cover if necessary.
- Incorrect references to drawings, figures, and appendices should be corrected. The Department will provide specific instances under separate cover, if necessary.
- Clarification that the performance monitoring wells will be constructed prior to the startup of the SVE system.
- Clarification of how air flow in the individual SVE lines will be measured and that there will be a sample port in each SVE line.

This work plan should be implemented in accordance with the approved project schedule and the voluntary cleanup agreement. Please provide me with a minimum of five business days notice prior to the start of field work. If you have any questions, please contact me at (518) 402-9620 or [kjcarpen@gw.dec.state.ny.us](mailto:kjcarpen@gw.dec.state.ny.us).

Sincerely,

Kevin Carpenter, P.E.  
Senior Environmental Engineer  
Project Manager
