- B Volunteer shall notify the Department of any significant difficulties that may be encountered in implementing the Investigation Work Plan, as approved, and shall not modify any obligation unless first approved by the Department
- C In accordance with the schedule contained in the Investigation Work Plan, Volunteer shall submit to the Department a final investigation report which shall

- 2 provide all of the assessments and evaluations identified in the Investigation Work Plan,
 - 3 identify any additional data that must be collected, and
- 4 include a certification by the individual or firm with primary responsibility for the day to day performance of the investigation that all activities that comprised the investigation were performed in full accordance with the Investigation Work Plan
- D 1 Within 90 days after receiving the final investigative report submitted under Subparagraph I C of this Agreement, the Department shall determine whether it has sufficient information respecting the nature and extent of the contamination on the Site and shall so notify Volunteer in accordance with subparagraph D 1 1 and 11
- If the Department determines that it does not have sufficient information respecting the nature and extent of the Site's contamination, it will so notify Volunteer in writing of the specific reasons why the Department believes it does not have sufficient data. Volunteer shall collect such additional data under a Department-approved revision to the Investigation Work Plan, which shall be attached to this Agreement as Exhibit "B-1" and made a part of this Agreement. However, if within 10 days after receipt of the Department's written notification, Volunteer elects in writing not to collect such additional data or if within that period the Department and Volunteer cannot agree upon revisions to the Investigation Work Plan, then this Agreement shall terminate except with respect to the following obligations which the Department shall be able to enforce under Paragraph IV
- a Volunteer's obligations under Paragraphs VI and VIII of this Agreement, and
- b Volunteer's obligation to ensure that it does not leave the Site in a condition, from the perspective of human health and environmental protection, worse than that which prevailed before any investigative activities were commenced by Volunteer

Upon termination of this Agreement, both parties shall retain whatever rights they may have had respecting each other as they had before the effective date of this Agreement. The period of time that Volunteer has to elect in writing whether to collect such additional data as provided above and/or the period of time that the Department and Volunteer agree upon for revisions to the Investigation Work Plan may be extended by mutual agreement of the parties

If the Department determines that it has sufficient information as to the nature and extent of the Site's contamination, the Department shall so inform Volunteer in writing, and shall also inform Volunteer as to whether or not the Department believes that remediation of the contamination on the Site is needed to allow the Site to be used for the Contemplated Use

- If, pursuant to Subparagraph I D 1 11, the Department determines that no remediation is needed to allow the Site to be used for the Contemplated Use, it shall so state in the notification provided pursuant to Subparagraph I D 1 11 of this Agreement and the Department shall provide Volunteer with the notification letter described in Subparagraph I H of this Agreement, and with the forbearance, release, and covenant not to sue described in Subparagraph I G of this Agreement

The proposed Remediation Work Plan shall provide, *inter alia*, that if during the Remediation Work Plan's implementation, contamination is discovered that was not discussed in the final investigative report, Volunteer shall investigate the nature and extent of such newly discovered contamination, and the Remediation Work Plan will be revised to have Volunteer remediate such newly discovered contamination in the event that this remediation is needed to allow the Contemplated Use to proceed. If, within10 days after receipt of the Department's written determination, Volunteer elects not to develop a Remediation Work Plan, or, in the event that the Department concludes that a mutually acceptable Remediation Work Plan cannot be successfully negotiated, then this Agreement shall terminate except with respect to the following obligations which the Department shall be able to enforce under Paragraph IV
- Volunteer's obligations under Paragraphs VI and VIII of this Agreement, and
- Volunteer's obligation to ensure that it does not leave the Site in a condition, from the perspective of human health and environmental protection, worse than that which prevailed before any remedial activities were commenced by Volunteer

Upon termination of this Agreement, both parties shall retain whatever rights they may have had respecting each other as they had before the effective date of this Agreement

Upon development of a proposed Remediation Work Plan, the Department will publish a notice in the Environmental Notice Bulletin to inform the public of the opportunity to submit to the Department, by no later than 30 days after the date of the issue of the Environmental Notice Bulletin in which the notice shall appear, comments on the proposed Remediation Work Plan, and shall mail an equivalent notice to the Town of Babylon and Suffolk County If, as a result of its review of the comments received, the Department determines that the proposed Remediation Work Plan to implement the Department-approved remedial activities for the Site must be revised

- due to environmental conditions related to the Site that were unknown to the Department at the time of its approval of the proposed Remediation Work Plan, or
- due to information received, in whole or in part, after the Department's approval of the proposed Remediation Work Plan, which indicates that the activities carried out in accordance with it are not sufficiently protective of human health and the environment for the Contemplated Use, then the Department will so notify Volunteer and will immediately commence negotiations with Volunteer to revise the proposed Remediation Work Plan accordingly. If the Department and Volunteer agree upon revisions to the proposed Remediation Work Plan, the revised proposed Remediation Work Plan shall become the final Remediation Work Plan and shall be attached to this Agreement as Exhibit "C" and made a part of this Agreement. However, if after good faith negotiation, Volunteer and the Department cannot agree upon revisions to the proposed Remediation Work Plan, then this Agreement shall terminate 10 days after receipt by Volunteer of the Department's written notification that negotiations have failed to develop an acceptable Remediation Work Plan, except with respect to the following obligations which the Department shall be able to enforce under Paragraph IV
- Volunteer's obligations under Paragraphs VI and VIII of this Agreement, and
- Volunteer's obligation to ensure that it does not leave the Site in a condition, from the perspective of human health and environmental protection, worse than that which prevailed before any remedial activities were commenced by Volunteer

Upon termination of this Agreement pursuant to this Paragraph, both parties shall retain whatever rights they may have had with respect to each other as they had before the effective date of this Agreement

If, following the 30 day comment period, the Department determines that the proposed Remediation Work Plan to implement the Department-approved remedial activities for the Site does not need to be revised, then the proposed Remediation Work Plan shall become the final Remediation Work Plan and shall be attached to this Agreement as Exhibit "C" and made a part of this Agreement

Volunteer shall commence implementation of, and implement, the final Remediation Work Plan contained in Exhibit "C" in accordance with its terms, however, the parties agree that the final Remediation Work Plan will be modified in the event that contamination previously unknown or inadequately characterized is encountered during implementation of the final Remediation Work Plan unless, after good faith negotiations, Volunteer and the Department cannot agree upon modifications to the final Remediation Work Plan In such event, this Agreement shall terminate 10 days after receipt by Volunteer of the Department's written notification that the negotiations have failed to develop an acceptable

modification to the final Remediation Work Plan, except with respect to the following obligations which the Department shall be able to enforce under Paragraph IV

Volunteer's obligations under Paragraphs VI and VIII of this Agreement, and

Volunteer's obligation to ensure that it does not leave the Site in a condition, from the perspective of human health and environmental protection, worse than that which prevailed before any remedial activities were commenced by Volunteer

Upon termination of this Agreement pursuant to this Paragraph, both parties shall retain whatever rights they may have had with respect to each other as they had before the effective date of this Agreement

- E 1 In accordance with the schedule contained in Exhibit "C," as may be modified by agreement between the parties and which modifications shall appear in Exhibit "C-1" of this Agreement, Volunteer shall submit to the Department a final engineering report that shall include "as-built" drawings showing all changes made during construction, to the extent necessary, and a certification that all activities were completed in accordance with the Remediation Work Plan and any Department-approved modification to the Remediation Work Plan as may appear in Exhibit "C" and "C-1"
- Volunteer shall submit a detailed post-remedial operation, maintenance, and monitoring plan ("O&M Plan"), if needed, along with the final engineering report
- 3 A professional engineer must prepare, sign, and seal the O&M Plan, if needed, "as built" drawings, final engineering report, and certification
- F Should post-remedial operation and maintenance prove to be necessary, upon the Department's approval of the O&M Plan, Volunteer shall implement the O&M Plan in accordance with the schedule and requirements of the Department-approved O&M Plan
- G 1 Within 90 days after receipt of the final engineering report, the Department shall notify Volunteer in writing whether the Department is satisfied that the Remediation Work Plan was satisfactorily implemented in accordance with Exhibit "C" (and, as appropriate, "C-1") and the Department-approved design, which notification shall not be unreasonably withheld
- Within 90 days after receipt of the final engineering report, the Department shall notify Volunteer in writing as to whether the Department is satisfied that the Site-specific cleanup levels identified in, or to be identified in accordance with, the Remediation Work Plan have been reached. Upon a determination that the Department is satisfied, the Department shall notify Volunteer in writing of its satisfaction and, except for the reservations

identified below, the Department and the Trustee shall release, covenant not to sue, and shall forbear from bringing any action, proceeding, or suit against Volunteer for the further investigation and remediation of the Site, based upon the release or threatened release of any Covered Contamination, provided that (a) timely payments of the amounts specified in Paragraph VI of this Agreement continue to be or have been made to the Department, (b) appropriate notices and deed restrictions have been recorded in accordance with Paragraphs IX and X of this Agreement, and (c) Volunteer and/or Volunteer's lessees, successors or assigns promptly commence and diligently pursue to completion the Department-approved O&M Plan, if any Nonetheless, the Department and the Trustee hereby reserve all of their respective rights concerning, and such release, covenant not to sue, and forbearance shall not extend to any further investigation or remedial action the Department deems necessary

- due to environmental conditions related to the Site that were unknown to the Department at the time of its approval of the Remediation Work Plan, and any modifications thereto, which indicate that Site conditions are not sufficiently protective of human health and the environment for the Contemplated Use,
- due to information received, in whole or in part, after the Department's approval of the final engineering report, which indicates that the activities carried out in accordance with the Remediation Work Plan are not sufficiently protective of human health and the environment for the Contemplated Use,
- iv due to Volunteer's failure to implement this Agreement in accordance with the terms and conditions contained herein, or
- v due to fraud committed, or mistake made, by Volunteer in demonstrating that the Site-specific cleanup levels identified in, or to be identified in accordance with, the Remediation Work Plan were reached

Additionally, the Department and the Trustee hereby reserve all of their respective rights and any such release, covenant not to sue, and forbearance shall not extend to Volunteer if Volunteer causes or suffers the release or threat of release at the Site of any hazardous substance (as that term is defined at 42 USC 9601[14]) or petroleum (as that term is defined in Navigation Law § 172[15]), other than Covered Contamination, or if Volunteer causes or suffers the use of the Site to change from the Contemplated Use to one requiring a lower level of residual contamination before that use can be implemented with sufficient protection of human health and the environment, nor to any of Volunteer's lessees, successors, or assigns who cause or suffer the release or threat of release at the Site of any hazardous substance (as that term is defined at 42

- due to environmental conditions related to the Site that were unknown to the Department
 at the time of its approval of the Work Plan which indicate that Site conditions are not
 sufficiently protective of human health and the environment for the Contemplated Use,
- due to information received, in whole or in part, after the Department's approval of the final engineering report, which indicates that the activities carried out in accordance with

the Work Plan are not sufficiently protective of human health and the environment for the Contemplated Use,

- due to Volunteer's failure to implement the Agreement to the Department's satisfaction, or
- due to fraud committed, or mistake made, by Volunteer in demonstrating that the Sitespecific cleanup levels identified in, or to be identified in accordance with, the Work Plan were reached

Additionally, the Department and the Trustee hereby reserve all of their respective rights concerning, and any such release, covenant not to sue, and forbearance shall not extend to

- Volunteer if Volunteer causes a, or suffers the, release or threat of release, at the Site of any hazardous substance (as that term is defined at 42 USC 9601[14]) or petroleum (as that term is defined in Navigation Law § 172[15]), other than Covered Contamination, or if Volunteer causes a, or suffers the use of the Site to, change from the Contemplated Use to one requiring a lower level of residual contamination before that use can be implemented with sufficient protection of human health and the environment, nor to

Notwithstanding the above, however, with respect to any claim or cause of action asserted by the Department, the one seeking the benefit of this release, covenant not to sue, and forbearance shall bear the burden of proving that the claim or cause of action, or any part thereof, is attributable solely to Covered Contamination

Notwithstanding any other provision in this release, covenant not to sue, and forbearance,

• If with respect to the Site there exists or may exist a claim of any kind or nature on the part of the New York State Environmental Protection and Spill Compensation Fund against any party, nothing in this release shall be construed, or deemed, to preclude the State of New York from recovering such claim

- except as provided in Subparagraph I G of the Agreement and in this letter, nothing contained in the Agreement or in this letter shall be construed as barring, diminishing, adjudicating, or in any way affecting any of the Department's or Trustee's rights (including, but not limited to, nor exemplified by, the right to recover natural resource damages) with respect to any party, including Volunteer
- nothing contained in this letter shall prejudice any rights of the Department or Trustee to take any investigatory or remedial action it may deem necessary if Volunteer fails to comply with the Agreement or if contamination other than Existing Contamination or Covered Contamination is encountered at the Site
- nothing contained in this letter shall be construed to prohibit the Commissioner or his duly authorized representative from exercising any summary abatement powers
- nothing contained in this letter shall be construed to affect the Department's right to terminate the Agreement at any time during its implementation if Volunteer fails to comply substantially with the Agreement's terms and conditions
