**VOLUNTARY CLEANUP AGREEMENT  
PROGRESS REPORT  
EKONOL POLYESTER RESINS  
OCTOBER 8, 2014 THROUGH NOVEMBER 7, 2014**

NYSDEC Site #V00653-9

Volunteer - BP America

---

**WORK ACCOMPLISHED THIS PERIOD (OCTOBER 8 THROUGH NOVEMBER 7, 2014)**

- Monitored and installed vents on wells that contained elevated levels of hydrogen sulfide and/or greater than ten percent of the lower explosion limit.
- Inspected surface-mount protective casings on monitoring wells for damage and need for repairs.
- Completed repairs to damaged surface-mount protective casings on wells.
- Completed O&M inspections of the bioreactor and the sub-slab depressurization system.
- Completed data validation for the August 2014 monitoring event.
- Continued evaluation of laboratory and field groundwater sampling data from the August 2014 monitoring event.

---

**WORK TO BE ACCOMPLISHED NEXT PERIOD (NOVEMBER 8 THROUGH DECEMBER 10, 2014)**

- Continue to monitor wells for elevated levels of hydrogen sulfide and/or greater than ten percent of the lower explosion limit.
- Commence preparation of a Site Management Plan.

---

**SCHEDULE UPDATE**

- The next groundwater monitoring event is tentatively scheduled to begin on December 1, 2014.

---

**SCOPE CHANGES**

- None this period.
