Alicia Barraza
Environmental Engineer
New York State Department of Environmental Conservation
Division of Environmental Remediation
Remedial Bureau B
625 Broadway, 12th Floor
Albany, New York 12233-7016

**Re: Voluntary Cleanup Agreement – Port Ivory
Progress Report – August 1 to 31, 2016**

Ms. Dewes and Ms. Barraza:

The Port Authority of NY & NJ (the Port Authority) hereby presents the monthly progress report for August 2016. This progress report summarizes field activities performed in Sites 1, 2, and 3, and work products submitted between August 1 and 31, 2016.

Site 1 (VCP Site No. V00615-2, VCA No. W2-0957-02-04) and Site 2 (VCP Site No. V00674-2, VCA No. W2-0986-02-04)

- There were no field activities or work products submitted in August 2016 for Sites 1 and 2.
- The results of the Site 1 groundwater and surface water sampling completed on July 27, 2016 in accordance with the Site 1 2015 Investigation Work Plan will be summarized in an Investigation Report.

Site 3 (VCP Site No. V00675-2, VCA No. W2-0987-02-04)

- Groundwater sampling at TW-16 was completed on July 27, 2016 in accordance with the Site 3 Remedial Action Work Plan (RAWP). The results of analysis are currently being evaluated.
- As noted in the July 2016 Progress Report, two monitoring wells (EW-2N and EW-2S) installed in late-May 2016 in AOC-Central Area were determined to be installed in the incorrect locations. These wells were reinstalled in the correct locations on August 31, 2016 (new monitoring well IDs are EW-2N-R and EW-2S-R). The monitoring wells will be gauged on a bi-weekly basis in accordance with the RAWP. The original wells will be abandoned following approval from the NYSDEC.

If you have any questions, please call Victoria Carley of my staff at 212-435-6108.

Very truly yours,

Robert P. Pruno, P.E.
Chief Environmental Engineer
