Re: Acknowledgement of Notice of Intent for Coverage under SPDES Multi-Sector General Permit for Stormwater Discharges Associated with Industrial Activity (GP-0-17-004)

Dear MAUREEN HART:

This is to acknowledge that the New York State Department of Environmental Conservation (the Department) has received a complete Notice of Intent (NOI) for coverage under the State Pollutant Discharge Elimination System (SPDES) Multi-Sector General Permit for Stormwater Discharges Associated with Industrial Activity (MSGP) GP-0-17-004 for the following facility:

RJ WILLIAMS INC
3716 STATE ROUTE 434
APALACHIN, NY 13732

The permit identification number for this facility is **NYR00A536**. Please be sure to include this permit identification number on any forms or correspondence you send the Department related to this general permit.

This authorization becomes effective on 6/8/2018, and is conditioned upon the following:

- The information submitted in the NOI received by the Department is accurate and complete.
- The Owner or Operator has developed and is implementing a Stormwater Pollution Prevention Plan (SWPPP) that complies with MSGP GP-0-17-004.
- When applicable, project review pursuant to the State Environmental Quality Review Act (SEQR) has been satisfied.
- All applicable Uniform Procedures Act (Environmental Conservation Law, 6NYRCC Part 621) permits have been obtained. Contact your Regional Permit Administrator (<http://www.dec.ny.gov/permits/363.html>) for further information. See Appendix F in the Permit for Regional Offices contact information.

Annual Reporting

Please be advised that an Annual Certification Report (ACR) must be completed and submitted for each facility that has obtained permit coverage under this general permit. A copy of the ACR can be found on the Department's website, listed on the next page. An ACR must be completed at the end of each calendar year and must be submitted by January 28th of the following year to:

Stormwater Compliance Coordinator
NYSDEC, Bureau of Water Compliance,
625 Broadway,
Albany, New York 12233-3506

Monitoring your stormwater discharges

You are responsible for making sure you understand all monitoring requirements. If your facility has stormwater discharges that are subject to semi-annual benchmark or compliance monitoring (based upon information submitted in your NOI), then you are required to submit your sampling results using EPA's NetDMR system. Instructions on how to register for NetDMR are located on the DEC website at: <http://www.dec.ny.gov/chemical/8461.html>.

If your NOI indicated that you discharge to an impaired waterbody and the pollutant of concern is in the benchmarks or numeric effluent limitations, then you will be required to monitor quarterly for the pollutant of concern. If applicable to your facility, please review the permit requirements and access EPA's NetDMR system to determine your specific quarterly monitoring requirements.

MSGP Monitoring		
Monitoring Frequency	Monitoring Periods	Report Due Date
Semi-Annual	Period 1 - January 1 st through June 30 th	July 28th
	Period 2 - July 1 st through December 31 st	January 28th
Quarterly	Quarter 1 – January 1 st through March 31 st	April 28th
	Quarter 2 – April 1 st through June 30 th	July 28th
	Quarter 3 – July 1 st through September 30 th	October 28th
	Quarter 4 – October 1 st through December 31 st	January 28th

All questions related to DMR reporting or registering for NetDMR should be directed to (518) 402-8177 or email NetDMR@dec.ny.gov.

If the result of one or more parameters for which analysis of benchmark or compliance monitoring was required exceeds the applicable benchmark cut-off concentration or effluent limitation, the facility must implement corrective actions to address the exceedance. Corrective actions include identifying the cause of the exceedance, implementing BMPs to address the cause of the exceedance and revisions to the facility's SWPPP to prevent the exceedance from reoccurring.

Modifying the facility's NOI data

If you need to make changes to your existing NOI information you must submit those changes on a new paper NOI or electronically on the e-NOI form.

Terminating MSGP coverage

If you no longer need coverage under this general permit, please submit a Notice of Termination (NOT) form to terminate your permit coverage as soon as possible. If you are selling the facility, it is your

responsibility to submit an NOT terminating your coverage and you should notify the new owner, in writing, of the possible requirement to obtain coverage under the general permit for stormwater discharges.

Annual Regulatory Fee

The annual regulatory fee for the MSGP will be billed by the Department each fall. For invoice questions contact the Department's Fee Determination Unit (518) 402-9343.

Additional information

The Department's website contains the following pages and links related to the MSGP:

- Multi-Sector General Permit Page <http://www.dec.ny.gov/chemical/9009.html>. On this page you will find the Permit, Fact Sheet and Responsiveness Summary as well as access to the electronic NOI, and all forms necessary for the MSGP program.
- The MSGP Toolbox <http://www.dec.ny.gov/chemical/62803.html>. This page has helpful tools to help stay in compliance with the permit
- No Exposure Certification Page <http://www.dec.ny.gov/chemical/62833.html>. If stormwater exposure to industrial activities and materials is removed, then you may be eligible for No Exposure certification.

If you have any questions or require additional information, please contact me at (518) 402-8108 or steven.mccague@dec.ny.gov

Sincerely,

A handwritten signature in dark ink, appearing to read "Steven J. McCague". The signature is fluid and cursive, with the first name "Steven" and last name "McCague" clearly distinguishable.
