SECTION 7 - COST ESTIMATES AND FINANCIAL ASSURANCE DOCUMENTS

Are there required cost estimates and financial assurance documents for closure?

☒ Yes ☐ No

If yes, attach additional sheets reflecting annual adjustments for inflation and any changes to the Closure Plan?

NOTES TO FINANCIAL STATEMENTS, Continued

The following represents the City's total landfill and hazardous waste sites liability which is recorded in the government-wide *Statement of Net Position*:

Pollution Remediation Obligations

The pollution remediation obligations (PROs) at June 30, 2024 and June 30, 2023, summarized by obligating event and pollution type, respectively, are as follows:

Obligating Event	Fiscal Year 2024		Fiscal Year 2023

Total	<u>\$291,100⁽¹⁾</u>	<u>100.00%</u>	<u>\$326,809⁽¹⁾</u>	<u>100.00%</u>

⁽¹⁾ There are no expected recoveries to reduce the liability.

The PRO liability is derived from registered multi-year contracts which offsets cumulative expenditures (liquidated/unliquidated) against original encumbered contractual amounts. The potential for changes to existing PRO estimates is recognized due to such factors as: additional remediation work arising during the remediation of an existing pollution project; remediation activities may find unanticipated site conditions resulting in necessary modifications to work plans; changes in methodology during the course of a project may cause cost estimates to change, e.g., the new ambient air quality standard for lead considered a drastic change will trigger the adoption of new/revised technologies for compliance purposes; and changes in the quantity which is paid based on actual field measured quantity for unit price items measured in cubic meters, linear meters, etc. Consequently, changes to original estimates are processed as change orders. Further, regarding pollution remediation liabilities that are not yet recognized because they are not reasonably estimable, the Law Department relates that the City has approximately 52 cases in total, 56 cases involving hazardous substances, including spills from above and underground storage tanks, and other contamination on, or caused by facilities on City-owned property; and there are two case involving Drinking Water and one miscellaneous case. Due to the uncertainty of the legal proceedings, future liabilities cannot be estimated.

The City, in compliance with the State Department of Environmental Conservation Permit Numbers 2-6302-00007/00019, 2-6102-00010/00013, 2-6106-00002/00022, 2-6204-007/00013, and 2-6202-00005/00017 issued pursuant to 6 NYCRR Part 360, must provide financial assurance for the closure of the following Marine Transfer Stations: North Shore, Hamilton Avenue, Southwest Brooklyn, East 91st Street, and West 59th Street. Such surety instrument must conform to the requirements of 6 NYCRR Part 360.12. The liability for closure as of June 30, 2024, which equates to the total current closure cost, is \$1.21 million for North Shore, \$1.07 million for Hamilton Avenue, \$1 million for Southwest Brooklyn, \$1.16 million for East 91st Street, and \$263 thousand for West 59th Street. The cost estimates are based on current data and are representative of the cost that would be incurred by an independent party. The estimates are subject to adjustment for inflation and to account for changes in regulatory requirements or cost estimates. For government-wide financial statements, the liability for closures is based on total estimated current costs. For fund financial statements, expenditures are recognized using the modified accrual basis of accounting when the closure costs are incurred, and the payment is due. The total liability equaling the total closure costs for the transfer stations of \$4.7 million is included under the Pollution Type "Other" in the table above.
