State Superfund Program

Receive Site Information by Email. See next page to Learn How.

Site Name: Jamestown Former MGP

May 2017

Site No. 907036

Tax Map No. 387.41-3-41, 387.41-3-40, and 387.41-3-21

Site Location: 208 East First Street, City of Jamestown, 14701

Inactive Hazardous Waste Disposal Site Classification Notice

The Inactive Hazardous Waste Disposal Site Program (the State Superfund Program) is the State's program for identifying, investigating, and cleaning up sites where the disposal of hazardous waste may present a threat to public health and/or the environment. The New York State Department of Environmental Conservation (DEC) maintains a list of these sites in the Registry of Inactive Hazardous Waste Disposal Sites (Registry). The site identified above, and located on a map on the reverse side of this page, has been added to the Registry as a Class 2 site that presents a significant threat to public health and/or the environment for the following reason(s):

Preliminary investigation work at the site has identified non-aqueous phase liquids (NAPL) in the subsurface environment, along with contaminants in soil and groundwater above applicable standards, criteria, and guidance.

Further investigation is warranted:

- To define the nature and extent of site-related contamination;
- To characterize potential human exposure pathways both on and off the property;
- And to evaluate remedial alternatives.

The Chadakoin River is located approximately 100 ft south of the site, and the possibility of off-site migration of either NAPL or dissolved groundwater contaminants constitutes a significant threat to the environment.

DEC will keep you informed throughout the investigation and cleanup of the site.

If you own property adjacent to this site and are renting or leasing your property to someone else, please share this information with them. If you no longer wish to be on the contact list for this site or otherwise need to correct our records, please contact DEC's Project Manager listed below.

FOR MORE SITE INFORMATION

Additional information about this site can be found using DEC's "Environmental Site Remediation Database Search" engine which is located on the internet at:
