RE: Data Summary Submittal (Through 2017)
Saint-Gobain Performance Plastics, McCaffrey Street Site
14 McCaffrey Street
Village of Hoosick Falls, Rensselaer County
DEC Site No.: 442046

Dear Mr. Shaw:

This letter provides a summary of the investigations completed and data collected through 2017 as part of the ongoing investigation at the Saint-Gobain Performance Plastics (SGPP) McCaffrey Street facility in Hoosick Falls, New York (the Site; Figure 1 and 2). The investigations completed to date have been performed in general accordance with the *Remedial Investigation/Feasibility Study Work Plan* dated August 30, 2016 (C.T. Male, 2016), the *Supplemental Scope of Work* dated May 12, 2017 (C.T. Male, 2017a), or as requested by New York State Department of Environmental Conservation (NYSDEC) personnel.

Introduction

Investigation activities conducted through March 2018 are discussed herein, however, only validated analytical results through December 2017 are included in the enclosed tables and figures. Results for samples collected after December 31, 2017, have not been fully validated and will be provided at a later date. The pending analytical data are generally limited to samples collected in 2018 including groundwater samples collected from existing Site monitoring wells and surface water samples.

Summary of Investigation Activities
Investigation activities conducted through March 2018 include:

- Boundary and topographic surveying of the Site and adjacent properties;
- Logging and soil sampling at 101 borings;
- Installing and sampling 95 temporary or permanent groundwater monitoring wells;
- Measuring water levels at Site monitoring well locations, surface water gauges, and other Site features;
- Slug testing at Site monitoring wells to estimate hydraulic conductivity;
- Installation and step-testing of two pumping test wells;
- Sampling surface water at locations in the Hoosic River, a catch basin southwest of the Site, and the floodplain southwest of the Site;
- Sediment sampling at 22 locations at the Site and adjacent properties;
- Visually inspecting and sampling various media at five locations within Site buildings (north and south sumps, elevator shaft, extruder pit, and roof drain outfall pipe);
- Sampling soil vapor and indoor air at seven locations within the facility, and sampling outdoor air at two locations;
- Geophysical surveying involving Ground Penetrating Radar (GPR) and push cable transmitters/receivers to identify piping routes; and
- Assessment via video portions of storm water, waste water and sewer piping.

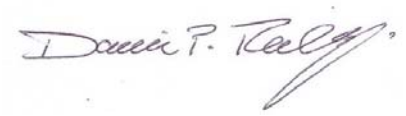

Additional investigation and interim remedial measure (IRM) pre-design activities are being completed in communication and coordination with NYSDEC personnel.

Summary of Analytical Data

The Remedial Investigation commenced on September 19, 2016 and remains in progress (C.T. Male, 2017b). A *Data Summary Report*, dated June, 9 2017 (C.T. Male, 2017b) was previously submitted to NYSDEC and included validated analytical results for various media samples collected through January 12, 2017. Since January 12, 2017, more than 600 additional samples have been collected across the Site and adjacent areas (investigation locations shown on Figures 3, 3A, and 3B).

Several tables and figures are attached to this submittal to summarize the samples collected through 2017. Table 1 lists samples collected by location and identifies the media and laboratory analysis completed for each sample. Table 2a presents the construction information for the 89 permanent groundwater monitoring wells installed as part of the investigation work. Table 2b presents water levels measured during a site-wide event in November 2017 when the installation of monitoring wells proposed in the *Supplemental Scope of Work* (C.T. Male, 2017a) was complete. Tables 3 through 12 present the validated analytical results organized by media and approximate well screen interval (for groundwater). The data summary figures focus on perfluorooctanoic acid (PFOA) concentrations in soil and groundwater, as PFOA is the primary compound of potential interest at the Site. PFOA concentrations in soil, groundwater, surface water, and sediment samples are presented in Figures 4A through 7. Draft boring logs and monitoring well construction logs were previously provided to NYSDEC via email on February 14, 2018. Further data evaluation, analysis, and recommendations will be provided in future submittals as part of the Remedial Investigation/Feasibility Study process.

Respectfully submitted,
C.T. MALE ASSOCIATES

Daniel P. Reilly, P.E.
Division Manager, Environmental Services

Notes:

**Depth relative to various surfaces for each sample (e.g., ground surface, water surface, top of manhole, etc.)*

***Sample collected at or within a drainage feature (e.g., manhole, catch basin, drainage ditch, etc.)*

a- Indoor air samples were collected from approximately three feet above the floor surface.

b- Sub-slab samples were collected from tubing installed to a depth of approximately 2 inches beneath the bottom of the slab.

c- Outdoor air samples were collected away from features and activities that may emit vapors.

N: Normal Sample

FD: Field Duplicate Sample

GP: general parameters (may include: total organic carbon, cyanide, moisture, pH, alkalinity, chloride, total dissolved, sulfate)

Met: metals

PCB: polychlorinated biphenyls

Pest: pesticides

PFAS: per- and polyfluoroalkyl substances

SVOC: semivolatile organic compounds

VOC: volatile organic compounds

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively” present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.
U - Analyte not detected above method detection limit (MDL).
UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.
UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively” present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively' present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively' present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively” present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively’ present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively’ present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively' present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.
U - Analyte not detected above method detection limit (MDL).
UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.
UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively' present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes
-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been “tentatively identified” or considered “presumptively present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).
UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.
U - Analyte not detected above method detection limit (MDL).
UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.
UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.
U - Analyte not detected above method detection limit (MDL).
UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.
UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).
UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).
UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value
N - The analyte has been "tentatively identified" or considered "presumptively" present.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.
U - Analyte not detected above method detection limit (MDL)
UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.
UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

**Sample collected at or within a drainage feature (e.g manhole, catch basin, drainage ditch, etc.)

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

**Sample collected at or within a drainage feature (e.g manhole, catch basin, drainage ditch, etc.)

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

N - The analyte has been “tentatively identified” or considered “presumptively” present.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

**Sample collected at or within a drainage feature (e.g manhole, catch basin, drainage ditch, etc.)

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associatec lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.
N - Sample Type: Normal
FD - Sample Type: Field Duplicate
J - The result is an estimated value.
R - The data are unusable. The sample results are rejected due to serious deficiencies in meeting QC criteria. The analyte may or may not be present in the sample.

U - Analyte not detected above method detection limit (MDL).

UB - Analyte not detected substantially above level reported in the associated lab, equipment, field, or trip blank.

UJ - The analyte not detected. The reported MDL and limit of quantitation (LOQ) are approximate and may be inaccurate or imprecise.

Notes

-- Not analyzed/Not available.

N - Sample Type: Normal

FD - Sample Type: Field Duplicate

J - The result is an estimated value.

U - Analyte not detected above method detection limit (MDL).

a- Indoor air samples were collected from approximately three feet above the floor surface.

b- Sub-slab samples were collected from tubing installed to a depth of approximately 2 inches beneath the bottom of the slab.

c- Outdoor air samples were collected away from features and activities that may emit vapors.
