

**Offset Project Name**

**Offset Project ID Code**

**Form CA-2.2E – Demonstration of Eligibility**

Attach documentation to demonstrate offset project eligibility. Each attachment must include a header that indicates it is an attachment to Form CA-2.2E and includes the offset project name and offset project ID code.

**A. Demonstration of Eligibility (applicable to all offset projects)**

Check the boxes below to indicate that the following required documentation is attached:

- 1. Demonstration of uncontrolled anaerobic storage (for each facility providing influent to the anaerobic digester)
- 2. Documentation of digester system feedstock (documentation that at least 50-percent of the total annual mass input into the anaerobic digester consists of livestock manure)

**B. Demonstration of Conditional Eligibility (applicable to certain offset projects)**

If the offset project meets certain specifications, it may be eligible for the award of CO<sub>2</sub> offset allowances even if the following apply:

- The offset project received or will receive funding or other incentives from any system benefit fund, or funds or other incentives provided through the energy efficiency and clean energy technology account allocation required pursuant to 6 NYCRR Subdivision 242-5.3(a).
- The offset project includes an electric generation component and the Project Sponsor or project sponsor organization retains the legal rights to any and all attribute credits generated by the offset project that may be used for compliance with a renewable portfolio standard (RPS) or other regulatory requirement.

Check one or more of the boxes below, as appropriate, to indicate that the following documentation is attached to demonstrate conditional eligibility:

- 1. The market penetration rate for anaerobic digesters in New York State is five (5) percent or less
- 2. The offset project is located at a farm with 4,000 or less head of dairy cows or equivalent animal units
- 3. The offset project is a regional-type digester designed for annual manure input less than would be produced by a farm with 4,000 or less head of dairy cows or equivalent animal units
