

Proposal

- Expand the statewide Atlantic salmon season to all year.
- Eliminate Atlantic salmon special regulations from 32 waters the currently are managed with an Atlantic Salmon, All year, Minimum Length-15", Daily Limit-3 special regulation.
- Eliminate 5 additional Atlantic salmon special regulations.

Rationale

A review of the Atlantic Salmon special regulations found that few Atlantic Salmon fisheries are managed under the existing statewide regulation. The predominate special regulation for Atlantic Salmon, 'All year, Minimum Length-15", Daily Limit-3', simply extended the existing statewide regulation to all year. Extending the Atlantic Salmon season to all year reflects current management of these fisheries.
