

8/20/14

Judge James T. McClymonds,

I am very much against the proposal of EWM Chemical Services building another hazardous waste site at its Balmer Road facility in northern Niagara County.

Since I was not able to attend any of the public comment sessions in person, I hereby submit this notice to you.

Anna C. Wadlinger

HEARINGS AND MEDIATION SERVICES

Dear Honorable Judge McClymonds:

I am writing to you to express my support for the expansion of the CWM Chemical Services Landfill in Niagara County, NY. This facility is a benefit in the following ways:

- CWM provides well-paying jobs to local citizens and is a supporter of the local companies in the area. They provide significant revenues for the county that aid in funding our schools, hospitals, and towns. In addition, all of us in Western New York benefit from the company's support to charitable organizations.
- CWM is a highly regulated facility that is needed here in Western New York. It provides safe and affordable waste disposal that is strictly regulated at both the State and Federal levels.
- CWM is looking to invest heavily in this region with this project. I respectfully encourage you to support CWM. The citizens and businesses of Niagara County need CWM, and they deserve your support.

Thank you,

Name

Eric Warren

Dear Sirs:

HEARINGS AND MEDIATION SERVICES

I am writing to state I am opposed to CWM Chemical Services expansion of its waste landfill. Niagara County still has much agricultural land and much of it along Lake Ontario. I think we have enough waste here.

Eighteen mile creek is ~~near~~ heavily polluted, Simonds Steel site is radioactive, a site in Barker is loaded with pesticides, Niagara Falls has much contaminants from its former chemical plants, the gulf in Lockport city has tons of junk from Harrison Radiator, and the list can go on.

I can suggest this material can be placed in sites in the Saratoga area, or how about the Adirondacks, or maybe Staten Island, but this won't happen.

I grew up on a fruit farm on Route #104 in Nanfene, N.Y. and I can still remember the use of DDT & arsenic & lead for use in sprayers. I do not want to go backwards.

- PAUL E. COVELL

Thank You!  
Paul E. Covell

I attended the hearing held in Lewiston regarding whether or not CWM should be granted a permit to expand. The arguments that were presented against granting these permits were intensely convincing.

PLEASE DO NOT ALLOW THESE PERMITS TO BE GRANTED.

Our area of this beautiful State has taken more than our share of the burden of chemical waste.

Dear Judge McClymonds,

I would like to acknowledge that CWM Chemical Services, LLC in the Town of Porter has been supportive of the Youngstown Volunteer Fire Company.

Recognizing that the Siting Board, as part of its criteria, looks for impacts to the community, please note that the Youngstown Volunteer Fire Company has positively benefitted from contributions made by CWM Chemical Services, LLC.

Sincerely,  
  
Chief Eric K. Wieland
