HEARINGS AND MEDIATION SERVICES

Your Honorable Judge McClymonds:

I wanted to inform you of my support for CWM Chemical Services, LLC. I hope that you and the members of the Siting Board support them as well.

This facility is one of Niagara County's largest employers and a loyal member of the community. The tax base generated by CWM provides significant funding to our local towns and schools. The job development by CWM affects not only those directly employed by this company, but also provides work to local companies that are needed to support their operations and environmental stewardship. CWM also regularly provides meaningful support and funding to many organizations, including school districts, hospitals, towns and charitable organizations.

This is a facility that provides a vital service for environmental remediation projects and manufacturers who need to dispose hazardous wastes in a safe, effective and environmentally sound manner. CWM must follow strict standards set forth by both State and Federal regulations to protect the environment and the health of the local citizens.

As a New York State resident, a hard working tax payer, and a person who supports local industry that is economically vital to this area, I respectfully request that CWM receive your full backing.

Yours Truly,

Ronald T. Alcorn
