HEARINGS AND MEDIATION SERVICES

Dear Judge McClymonds,

I am in favor of the expansion of CWM Chemical Services, LLC.

It is a matter that is close to me, as I have a connection to an employee of the site.

We hear many negatives and much misinformation on this issue.
Please be aware of some truths:

- This site employs hard-working people who are very conscious and respectful of the environment.
- These employees live in the area. They raise their families here. They contribute their time and talent to local organizations/clubs/churches...
- They have a right to work and make a living at a legitimate, revenue generating, tax-paying facility.
- If there was not a "NEED" for an expansion of this facility, Waste Management would not be looking to invest a significant amount of money to continue operations here.

Hopefully, Judge McClymonds, you are passing along these comments to the Siting Board. We want them aware that there are many of us counting on the continuing of operations here, so we may continue to be productive members of this community.

Thank you!
