

New York State Department of Environmental Conservation
Division of Materials Management

FOOD SCRAPS TRANSPORTERS

Food Donation and Food Scraps Recycling Law

The Environmental Conservation Law Section 272211(1) requires the Department to publish a list of waste transporters that manage source-separated organics. The information provided in the following fulfills that requirement. The information provided reflects current records of the Department, however, data changes may occur each business day. The following list was compiled to assist businesses and institutions in identifying transporters across the state that offer food scraps hauling services for recycling. This is not an endorsement of the following companies or guarantee of food scraps hauling services.

Note: If you are a transport company that offers food scraps transport services for large businesses, please contact FoodScrapsLaw@dec.ny.gov.
