## INTRODUCTION

In 1988, the Legislature enacted the State Agency Environmental Audit Law, Section 3-0311 of the Environmental Conservation Law (ECL). This law requires New York State agencies, certain public authorities and public benefit corporations to conduct environmental audits of their operations each year. The State Audit Law was amended in 1991, increasing the administrative and information management requirements for the State Agency Environmental Audit (SAEA) process and adding requirements for submission of remedial plans and third party violations.

The State Audit Law requires the New York State Department of Environmental Conservation (NYSDEC) to develop guidelines for the preparation of environmental audits, and for the ranking of violations based on the threat each poses to public health or the environment. The New York State Agency Environmental Audit Guidance Manual provides these guidelines, updated summaries of regulations, and defines the hierarchy of ranks to be used to classify violations. This hierarchy ranges from N1 to N4, the most serious violations being N1 and the least serious being N4 (see Table 1).

The NYSDEC is required by the State Audit Law to compile information received and submit a report to the Governor, the Director of the Budget, and the Legislature each year. The NYSDEC is also required to assess whether the agencies' proposed ranks are appropriate, and to change those that are not. Note: The term agency refers to all New York State agencies, authorities and public benefit corporations as described in ECL 3-0311. The NYSDEC also evaluates the adequacy of each proposed remedial plan for correcting violations. This report provides the required information for 2008-2009 State Agency Environmental Audit (April 1, 2008 through March 31, 2009).

The SAEA program has continued to improve with the implementation of enhanced information processing procedures. The New York State Agency Environmental Audit Guidance Manual, dated April 14, 2003, is available online and was provided to each agency identified as subject to the SAEA.

The following agencies supplied their audit report data to the NYSDEC electronically: Metropolitan Transportation Authority (MTA), Department of Transportation, Dormitory Authority, Thruway Authority, Canal Corporation, and Department of Environmental Conservation.

Essential components of the successful completion of the SAEA process and the production of this report are the partnerships built with the agencies required to submit their information; the NYSDEC regulatory programs which assist in summarizing and interpreting the regulations; the NYSDEC Regional Audit Coordinators; other Regional NYSDEC staff; and the staff of the Division of Operations. The Pollution Prevention Unit offers assistance in identifying and implementing pollution prevention initiatives and the development of environmental management systems (Appendix A).

## FINDINGS

The 2008 - 2009 State Agency Environmental Audit (SAEA), covering the period of April 1, 2008 through March 31, 2009, produced the following information and results:

1. There were 50 agencies, authorities, and public benefit corporations that conducted environmental audits and submitted reports as required by the State Audit Law. They conducted audits at more than 6,000 facilities, projects, and operations. For a list of all reporting agencies, see Table 2A; for a glossary of State audit terms, see Appendix D.
2. There were **19** agencies that reported one or more violations, and **31** agencies reported that they did not have any instances of non-compliance in this reporting period (see Table 2B). The latter reported total compliance; that their facilities, projects or operations were not subject to the NYSDEC's regulatory programs; or a combination of total compliance and not subject to the regulatory programs. For a list of NYSDEC environmental regulations, grouped by program area, see Appendix B.
3. There were a total of **472** incident reports filed by the **19** agencies reporting violations during this audit period (see Table 3). Of these, there were **388** new and continuing instances of non-compliance which were reported. The non-compliant incidents by rank classifications at the end of audit cycle are as follows:
  - **1** was N1 (posed an imminent substantial threat to the public health or the environment);
  - **75** were N2 (posed a potential substantial threat to the public health or the environment);
  - **200** were N3 (posed a discernible, but not substantial threat to the public health or the environment); and
  - **112** were N4 (no evidence of any discernible threat to the public health or the environment).

In addition, **84** violations were ranked as compliant (C) as of the end of the report period (see Table 3). These were violations which came into compliance during SAEA 2008 - 2009 audit cycle. Eight agencies comprised **92** percent of the total reported violations: DOT, DSP, MTA, OMH, OPRHP, PANYNJ, SUNY, and Thruway (see Table 3). The reported cost to date by the **19** agencies with ongoing work to correct violations was estimated to be **\$137,885,340** (see Table 6).

4. The NYSDEC regulatory program areas which had the greatest number of instances of non-compliance or violations were as follows (see Table 4):
  - Environmental Remediation program comprised **340** incidents (72% of the total of 472 incidents);
  - Water program comprised **82** incidents (17% of the total);
  - Solid and Hazardous Materials program comprised **34** incidents (7% of the total). (This program is part of the new Division of Materials Management as of the fall 2010)

5. The six agencies with the largest number of violations are (see Table 8): Department of Transportation with **168** (36% of the total of 472 incidents); Metropolitan Transportation Authority with **112** (24% of the total of all incidents); the Office of Mental Health with **45** (10% of the total of all incidents); the Office of Parks, Recreation and Historic Preservation with **44** (9% of the total); the Thruway Authority with **22** (5% of the total); and SUNY with **20** (4% of the total)..
6. The total final cost of remediating the 472 ongoing violations is estimated to be **\$287,083,716** which includes **\$137,885,340** disbursed to date, and **\$149,198,376** estimated future costs (see Table 6). The six agencies with the largest estimated total future cost are (see Table 6): the Metropolitan Transportation Authority (**\$90,482,666**); the Niagara Frontier Transportation Authority (**\$12,000,000**); the Department of Transportation (**\$9,076,900**); the Empire State Development Corporation (**\$8,797,760**); the Office of Parks, Recreation Historic Preservation (**\$8,010,414**), and the Department of Environmental Conservation (**\$6,185,000**).
7. Based on a breakdown of cost by NYSDEC environmental program area, the largest future remedial cost estimates fall within three programs (see Table 7): Environmental Remediation (**\$103,084,175**), Water (**\$25,401,060**), and Solid and Hazardous Materials (**\$20,195,381**). (Note: the Solid and Hazardous Materials programs fall under the new Division of Materials Management as of the fall 2010)
8. The projected "Future," "Future Total," and "Total Compliance" cost amounts found in Tables 6, 7 and 9 for both the State departments and individual agencies are estimated costs, and may be based on incomplete or uncertain information provided by the departments and agencies.
9. The enforcement actions which were underway by NYSDEC against various State Agencies and Public Authorities during this Audit Cycle totaled **17** (see Table 13).
10. Of the **472** total State agency remedial plans reviewed by the NYSDEC, **51** (11% of the total ongoing violations) were disapproved because they were incomplete or deemed not adequate to bring the violations into compliance (Table 15). Of the 472 total submitted violation reports, the NYSDEC changed the agencies proposed rank (either up or down) in **116** instances.
11. Comparing the 2008 to the 2009 reported results, the total number of agency violations decreased from **529** to **472** (a 11% decrease, see Table 10). The total number of violations which were brought into compliance decreased from **165** in 2008 to **84** in 2009, a decrease of 49% from 2008 (see Table 10). (Note: The 2007 - 2008 State Agency Environmental Audit Report originally indicated that there were a total of 506 incidents. This number was revised to 529 subsequent to the addition of several previously missed incident reports.)

12. The NYSDEC regions with the largest number of violations were (see Table 5): Region 2 (New York City regional headquarters) with **102** (22% of the total of 472 violations statewide); Region 1 (Stony Brook headquarters) with **79** (17% of the total); Region 3 (New Paltz headquarters) with **59** (13% of the total).
13. The NYSDEC Regions with the most N1 and N2 violations were (see Table 5): Region 1, Stony Brook, with **28** (37% of total of 76 combined N1 and N2 violations); Region 2, New York City, with **23** (30% of total combined N1 and N2 violations); and Region 3, New Paltz, with **8** (11% of total combined N1 and N2 violations). The remaining regions had from 1 to 4 of such violatons.
14. A comparison of violations for the last ten years, 1999 through 2009:

<b>Report Year Ending</b>	<b>Total Violations Reported</b>
1999	1170
2000	1073
2001	880
2002	942
2003	899
2004	759
2005	665
2006	709
2007	608
2008	529
2009	472

15. For a listing of the counties contained within each NYSDEC region, see Appendix E.
16. There were a total of **31** third party violations reported by **6** agencies (see Table 14). There were no third party violation incidents ranked N1, **14** were ranked N2, **11** were ranked N3, **none** were ranked N4, and **6** were ranked C.
17. A number of agencies have developed, or are in the process of implementing, various environmental management improvements in conjunction with the audit. This information is contained in Appendix C.

# Tables

**Table 1 - Priority Ranking System**

The law requires each violation be ranked according to the threat it poses to the public health or the environment. The ranks are from 1 to 4, 1 being the greatest threat and 4 constituting no discernible threat.

Rank N1- N4: the facility, project or operation is in non-compliance with a regulation.

Rank C: the facility, project, or operation is in compliance.

Rank	Definition	Description
C	An incident which is in compliance is one which meets guidelines set forth in the applicable regulation.	In Compliance
N1	Poses an imminent substantial threat to the public health or the environment.	Imminent substantial threat
N2	Poses a potential substantial threat to the public health or the environment.	Potential substantial threat
N3	Poses a discernible, but not substantial, threat to the public health or the environment.	Discernible but not substantial threat
N4	No evidence of discernible threat to the public health or the environment.	No evidence of discernible threat

## Table 2B - Agency Response Status

Of the 19 affected agencies required to conduct an environmental audit, the following 1 agency was in total compliance by the end of the reporting year:

NYS DEPT OF HEALTH

Of the 19 affected agencies required to conduct an environmental audit, the following 18 agencies had at least one instance of ongoing non-compliance:

EMPIRE STATE DEVELOPMENT CORPORATION  
METROPOLITAN TRANSPORTATION AUTHORITY  
NIAGARA FRONTIER TRANSPORTATION AUTHORITY  
NYS CANAL CORPORATION  
NYS DEPT OF AGRICULTURE & MARKETS  
NYS DEPT OF CORRECTIONS AND COMMUNITY SUPERVISION  
NYS DEPT OF ENVIRONMENTAL CONSERVATION  
NYS DEPT OF TRANSPORTATION  
NYS EDUCATION DEPARTMENT  
NYS OFFICE FOR PEOPLE WITH DEVELOPMENTAL DISABILITIES  
NYS OFFICE OF MENTAL HEALTH  
NYS OFFICE OF PARKS REC & HISTORIC PRESERVATION  
NYS OLYMPIC REGIONAL DEVELOPMENT AUTHORITY  
NYS POLICE  
NYS THRUWAY AUTHORITY  
OGDENSBURG BRIDGE & PORT AUTHORITY  
PORT AUTHORITY OF NEW YORK & NEW JERSEY  
STATE UNIVERSITY OF NEW YORK

**Table 13 - State Agencies and Public Authorities - NYSDEC Actions for this Audit Cycle**

(For Agency Code, see Appendix F.)

---

**Incident No:** 3246      **Agency:** MTA      **Regulation ID:** 56A      **Rank:** N3  
**DEC Region:** 3      **Municipality:** WESTCHESTER  
**Location ID:** 75002      **Location Name:** METRO-NORTH RAILROAD HARMON YARD  
**Violation Date:** 01/01/1993      **Consent Order Date:** 08/01/1994      **Consent Order No:** 31402 / 8704  
**Violation Description:**  
Presence of several plumes of petroleum product in soil and groundwater at Harmon Yard. Product has been analyzed and found to consist of non-hazardous petroleum related constituents.

---

**Incident No:** 3266      **Agency:** NFTA      **Regulation ID:** 58      **Rank:** N3  
**DEC Region:** 9      **Municipality:** ERIE  
**Location ID:** 75028      **Location Name:** BUFFALO NIAGARA INTERNATIONAL AIRPORT  
**Violation Date:** 01/01/1999      **Consent Order Date:** 05/01/1998      **Consent Order No:** 98-35  
**Violation Description:**  
The facility still is having SPDES permit exceedances for BOD, although the magnitude is less. The NFTA is pursuing an engineered wetland for treatment

---

**Incident No:** 3289      **Agency:** DOH      **Regulation ID:** 50N      **Rank:** C  
**DEC Region:** 4      **Municipality:** ALBANY  
**Location ID:** 75073      **Location Name:** DAVID AXELROD INSTITUTE FOR PUBLIC HEALTH  
**Violation Date:** 01/01/2006      **Consent Order Date:** 12/22/2008      **Consent Order No:** CO4-20081002-85  
**Violation Description:**  
Regulation of autoclaves thought to be under DOH purvue. Inspections and meetings with DEC in Spring 2006- Determined consensus that autoclaves and incinerator will be registered through DEC.

---

**Incident No:** 3291      **Agency:** DOH      **Regulation ID:** 50N      **Rank:** C  
**DEC Region:** 4      **Municipality:** ALBANY  
**Location ID:** 75076      **Location Name:** NYS DOH GRIFFIN LABS  
**Violation Date:** 01/01/2006      **Consent Order Date:** 12/22/2008      **Consent Order No:** CO4-20081002-85  
**Violation Description:**  
Regulation of autclaves thought to be under DOH purvue. Inspections and meetings with DEC in Spring 2006- Determined consensus that autoclaves and incinerator will be registered through DEC.

---

**Incident No:** 3342      **Agency:** OMH      **Regulation ID:** 56A      **Rank:** C  
**DEC Region:** 8      **Municipality:** MONROE  
**Location ID:** 75037      **Location Name:** NYS ROCHESTER PSYCHIATRIC CENTER  
**Violation Date:** 01/01/1998      **Consent Order Date:** 11/08/1999      **Consent Order No:** STIP spill 9603899  
**Violation Description:**  
During tank removals completed by OGS project TR04217, gasoline contaminated soils were found at the tank excavation site. Spill No. 96-03899 was reported, & a response was initiated. 2002: Monitoring has been underway for approximately three years. A remediation system was installed and is in operation. Remediation was also completed in conjunction w/a hydraulic lift replacement system in the adjacent vehicle maintenance garage.

---

**Incident No:** 3358      **Agency:** SUNY      **Regulation ID:** 56B      **Rank:** N3  
**DEC Region:** 1      **Municipality:** SUFFOLK  
**Location ID:** 75003      **Location Name:** SUNY AT STONY BROOK  
**Violation Date:** 01/01/1996      **Consent Order Date:** 01/13/1998      **Consent Order No:** CO 1-3080 1-5962  
**Violation Description:**  
Ongoing subsurface investigation & remediation of #6 oil spill at West Campus heating plant.

---

---

**Incident No:** 3365      **Agency:** ESD\_UDC      **Regulation ID:** 51A      **Rank:** N3  
**DEC Region:** 2      **Municipality:** QUEENS  
**Location ID:** 76963      **Location Name:** QUEENS WEST  
**Violation Date:** 01/01/2003      **Consent Order Date:** 02/08/2005      **Consent Order No:** 2-256145

**Violation Description:**

The Queens West Stage 2 site consists of a former oil refinery on the northern portion of the site, and as such, floating petroleum product was released during site demolition and excavation in 2004 and 2005. Primary contaminants of concern in the soil include elevated levels of volatile organic compounds (VOCs), semi-volatile organic compounds (SVOCs), petroleum, and metals (lead, arsenic, mercury, cadmium) above site specific soil action levels. Primary contaminants of concern in the groundwater include VOCs (benzene, tetrachloroethene) and locations with floating petroleum product layer on the groundwater.

---

**Incident No:** 3367      **Agency:** ESD\_UDC      **Regulation ID:** 43      **Rank:** N4  
**DEC Region:** 2      **Municipality:** QUEENS  
**Location ID:** 76963      **Location Name:** QUEENS WEST  
**Violation Date:** 04/10/2006      **Consent Order Date:** 09/26/2006      **Consent Order No:** R2-20060410-163

**Violation Description:**

The Queens West Master Plan includes the development of public waterfront open space. The shoreline enhancement work includes repair and reconstruction of existing rip-rap; reconstruction of timber bulkheads and relieving platforms; and construction of walkway, storm water outfalls, pile supported and cantilevered balconies. NYSDEC issued a tidal wetlands permit number 2-6304-00427/00005 for certain waterfront work on February 23, 2003. On or about April 4, 2006, NYSDEC identified several violations of that tidal wetlands permit, including: the temporary deposit of prohibited material for construction of a stormwater outfall in Stage 4; deposit of prohibited material in tidal wetlands adjacent area during the construction of the bulkhead in Stage 2; and the use of prohibited material to backfill a small depression in the inlet area of Stage 2. These violations have been resolved by a Consent Order dated 5/10/07 which required implementing certain mitigation measures and assessed a civil penalty in the amount of \$107,500, of which consent order required payment by QWDC of \$70,000 to the State of New York.

---

**Incident No:** 3370      **Agency:** OPRHP      **Regulation ID:** 56      **Rank:** N2  
**DEC Region:** 3      **Municipality:** ROCKLAND  
**Location ID:** 75174      **Location Name:** KINGS HIGHWAY GAS STATION  
**Violation Date:** 02/23/2007      **Consent Order Date:** 02/23/2007      **Consent Order No:** 3-99061

**Violation Description:**

The following violations issued on 2/23/07 as stated on the unexecuted Order on Consenture DIPC responsibility . Failure to have a valid and current registration - there were errors on the registration and a 750 gal UST was not listed. Submit documentation that facility is fully compliant w/regulations including type of tanks and lines are in the ground - provide tank labels. Remove 750 gal UST.

---

**Incident No:** 3512      **Agency:** DOT      **Regulation ID:** 39      **Rank:** N4  
**DEC Region:** 5      **Municipality:** FRANKLIN  
**Location ID:** 807214      **Location Name:** REG.07 - HWY ROW FRANKLIN CO  
**Violation Date:** 01/01/2006      **Consent Order Date:** 03/29/2006      **Consent Order No:** CO5-20060104-1

**Violation Description:**

2006: Tree removal operations necessary to enhance safety along the Rt. 3 ROW resulted in violations for work on State Forest Preserve lands as described in Items 26-29 of the Interagency Consent Order dated March 29, 2006 (CO5-20060104-1).

---

**Incident No:** 3560      **Agency:** OMH      **Regulation ID:** 50A      **Rank:** C  
**DEC Region:** 3      **Municipality:** DUTCHESS  
**Location ID:** 75088      **Location Name:** HUDSON RIVER PSYCHIATRIC CENTER  
**Violation Date:** 01/01/1999      **Consent Order Date:** 08/01/2004      **Consent Order No:** 3-20030110-4

**Violation Description:**

Historically, there were SEVERAL SITES ON the GROUNDS of the Hudson River PC USED AS LANDFILLS BY the FACILITY, LOCAL MUNICIPALITY & NYSDOT. A PHASE II INVESTIGATION was COMPLETED BY the DEC in 3/91. CHARACTERIZING these SITES AS NON-HAZARDOUS (W/the EXCEPTION OF the PORTION OF SITE 6, which has been ADDRESSED & is REPORTED UNDER a SEPARATE VIOLATION). FURTHER INVESTIGATION WORK has been COMPLETED, W/DIRECTION provided BY DEC ON CLOSURE WORK REQUIRED.

---

**Incident No:** 3561      **Agency:** OPRHP      **Regulation ID:** 56A      **Rank:** N3  
**DEC Region:** 3      **Municipality:** ULSTER  
**Location ID:** 76928      **Location Name:** BRISTOL BEACH SP  
**Violation Date:** 01/01/2005      **Consent Order Date:** 08/11/2004      **Consent Order No:** 3-2934/9706

**Violation Description:**

The following spill events remain open: Spill No. 9009587--10/22/90 unspecified quantity of #6 fuel oil was released from two 100,000 gallons (with 2 feet of sludge) and one 4,000 gallon (with 4 feet of product) leaking aboveground storage tanks. Surface (Hudson River) was affected. Spill No. 9613238--1/22/97 unknown petroleum spilled at Staple's backyard, unknown quantity affecting groundwater.

---

**Incident No:** 3758      **Agency:** MTA      **Regulation ID:** 34      **Rank:** N3  
**DEC Region:** 3      **Municipality:** WESTCHESTER  
**Location ID:** 75002      **Location Name:** METRO-NORTH RAILROAD HARMON YARD  
**Violation Date:** 01/01/1990      **Consent Order Date:** 08/01/1994      **Consent Order No:** 31402/8704

**Violation Description:**

OU-I". (See comments section). The Operable Unit II ("OU-II") portion of the project, which involves groundwater contamination in the vicinity of the remediated lagoon has been operating for a number of years. This remediation phase involves a vacuum-enhanced recovery system and sheeting wall. Operation of the system is now routine and periodic reports are being sent to NYSDEC.

---

**Incident No:** 3816      **Agency:** SUNY      **Regulation ID:** 56      **Rank:** C  
**DEC Region:** 4      **Municipality:** OTSEGO  
**Location ID:** 811016      **Location Name:** SUNY AT ONEONTA  
**Violation Date:** 01/01/2008      **Consent Order Date:** 02/25/2008      **Consent Order No:** R4-2008-0128-18

**Violation Description:**

In a recent DEC inspection, several items of non-compliance were noted: Unsigned SPCC plan, color fill ports required labeling, high level gauges and alarms were incorrect, sumps were not cleaned, inventory system software required upgrading, monthly inspection procedures were not properly documented, unpainted tank, main fuel berm required inspection, containment for various small tanks required inspection and correction, #6 service tanks required inspection, paths of discharge need to be surveyed, inspected, mitigated, and permitted as required, including main tank berm water discharge.

---

**Incident No:** 3820      **Agency:** SUNY      **Regulation ID:** 58      **Rank:** N3  
**DEC Region:** 4      **Municipality:** OTSEGO  
**Location ID:** 811016      **Location Name:** SUNY AT ONEONTA  
**Violation Date:** 01/01/2008      **Consent Order Date:** 02/25/2008      **Consent Order No:** R4-2008-0128-18

**Violation Description:**

In a recent DEC inspection and spill, items of non-compliance were noted: A survey of floor drains in various buildings needed to be conducted, discrepancies need to be mitigated as required, the spill involved a discharge into Silver Creek via the campus storm sewer.

---

**Incident No:** 3826      **Agency:** SUNY      **Regulation ID:** 58B      **Rank:** N3  
**DEC Region:** 4      **Municipality:** OTSEGO  
**Location ID:** 811016      **Location Name:** SUNY AT ONEONTA  
**Violation Date:** 01/01/2008      **Consent Order Date:** 02/25/2008      **Consent Order No:** R4-2008-0128-18

**Violation Description:**

In a recent DEC inspection and spill, items of non-compliance were noted: A survey of floor drains in the building needed to be conducted to determine drainage to storm or sanitary sewer system. Discrepancies need to be mitigated as required. SPDES permits /fees need to be applied and paid for as required.

---

**Incident No:** 3827      **Agency:** SUNY      **Regulation ID:** 58A      **Rank:** N3  
**DEC Region:** 4      **Municipality:** OTSEGO  
**Location ID:** 811016      **Location Name:** SUNY AT ONEONTA  
**Violation Date:** 01/01/2008      **Consent Order Date:** 02/25/2008      **Consent Order No:** R4-2008-0128-18

**Violation Description:**

In a recent DEC inspection and spill, items of non-compliance were noted: A survey of floor drains in various buildings needed to be conducted. Discrepancies need to be mitigated as required. SPDES permits need to be filed as required. SPDES fees must be paid as required.

<b>Violation Date:</b> 01/01/2008	<b>Third Party Name:</b> DRS TECHNOLOGIES INC		
<b>Violation Description:</b>			
An individual at the facility applies pesticide (Roundup) twice a year to control vegetation surrounding the reservoir on the property. The facility has a certified pesticide technician, but is only certified under the cooling tower category. Although Roundup is not a restricted pesticide and supervision of a certified commercial pesticide applicator is not required, the individual needs to be certified under the ornamental and turf pest control category to apply Roundup. The facility also needs to record pesticide usage and file a Pesticide Reporting Law annual report with the NYSDEC. These requirements were not met. It was estimated by the facilities supervisor that approximately one quart of concentrated Roundup (diluted per manufacturer's instructions) was applied at the facility during the audit cycle.

## NYSDEC Division of Environmental Permits, Program Information

**This Page is Intentionally Blank**

## **Appendix A: NYSDEC Division of Environmental Permits, Program Information**

### **Pollution Prevention**

Traditionally, the approach to environmental protection has been through laws and regulations seeking to control the discharge of waste to specific media (air, water and land) following waste generation. Although this approach was successful in making significant improvements to environmental quality, much more can be done to reduce releases to the environment through efforts to eliminate pollution at the source.

In order to further pollution prevention efforts, partnerships can be developed between the State agencies and the Department of Environmental Conservation (DEC) to prevent pollution at the source. The results of these efforts will be greater environmental protection and real cost savings to the agencies implementing pollution prevention programs.

In order to further pollution prevention efforts, partnerships can be developed between the State agencies and the Department of Environmental Conservation (DEC) to prevent pollution at the source. The results of these efforts will be greater environmental protection and real cost savings to the agencies implementing pollution prevention programs.

Specific benefits from implementing pollution prevention initiatives include:

- Reduced costs associated with using less raw materials,
- Reduced costs associated with less waste needing to be managed (i.e., treated or disposed),
- Reduced costs associated with less waste needing to be transported,
- Reduced costs associated with fewer waste streams needing to be permitted,
- Reduced exposure to liability costs and cleanup costs associated with spills, and
- Reduced administrative costs to manage waste streams.

### **Environmental Management System (EMS)**

An EMS can provide a structure to manage, assess, and continuously improve the effectiveness and efficiency of the management of their environmental activities. An EMS approach builds in periodic review by top management and emphasizes continuous improvement instead of crisis management. The systematic nature of the EMS allows an organization to focus on implementation and take a more inclusive and proactive view of environmental protection. A properly developed and implemented EMS will improve environmental compliance and help to identify and implement pollution prevention opportunities.

State agencies are encouraged to work with DEC to promote pollution prevention and to develop and implement an EMS to help improve environmental programs. To begin these efforts, agencies should call the Pollution

An Environmental Management System (EMS) can help State agencies to integrate environmental concerns into their everyday business decision-making, to improve environmental compliance and to promote pollution prevention. Properly developed and implemented, an EMS can reduce costs while advancing environmental protection and performance.

### **Contact Information**

The Pollution Prevention Unit may be contacted at 518-402-9469 or check the Unit's technical assistance resources website at <http://www.dec.state.ny.us/website/ppu>.

## State Agency Environmental Audit Regulations by NYSDEC Program Area

**This Page is Intentionally Blank**

## **Appendix B: State Agency Environmental Audit Regulations by NYSDEC Program Area**

### **AIR RESOURCE**

- 01 Architectural Coatings
- 02 Asbestos Containing Surface Coating Material
- 03 Perchloroethylene Dry-Cleaning Facilities
- 03 A Pharmaceutical and Cosmetic Manufacturing Processes
- 03B Synthetic Organic Chemical Manufacturing
- 03C Consumer and Commercial Products
- 04 Fuel Composition and Use -- Sulfur Limitations
- 04A Fuel Composition and Use -- Waste Fuel
- 04B Fuel Composition and Use -- Gasoline
- 05 Gasoline Dispensing Sites and Transport Vehicles
- 05A Emissions from Motor Vehicles Propelled by Gasoline Engines
- 05C Emissions from Vehicles Propelled by Diesel Engines
- 05D Emission Standards for Motor Vehicles and Motor Vehicle Engines
- 05E\* Inspection and Maintenance Program Audits
- 05F Emissions from Heavy Duty Diesel Vehicles
- 06 Permits and Registrations
- 06A Emission Statements
- 06B Air Pollution Episode
- 06C General Process Emission Sources
- 07 General Nuisance
- 09 Graphic Arts Facilities
- 10 Incinerators
- 11 Indirect Source Permits
- 12 New Source Review
- 13 Open Burning
- 14 Petroleum and Volatile Organic Liquid Storage and Transfer
- 15 Solvent Metal Cleaning Process
- 16 Stationary Combustion Installations
- 16A New Source Performance Standards for Small Steam Generation Units
- 17 Surface Coating Processes

### **FISH, WILDLIFE & MARINE RESOURCES**

- 18 Destructive Wildlife -- Permit to Take
- 19 State Agency Fishing Permit (Institutional)
- 20 Freshwater Wetlands Protection

- 21 Liberation of Fish and Wildlife
- 22 Endangered/Threatened Species License
- 23 Protection of Waters
- 24 License to Collect or Possess
- 40 Wild, Scenic and Recreational River Systems
- 41 Marine Aquiculture Permits
- 42 Shellfish Management
- 43 Tidal Wetlands Act

### **LANDS & FORESTS**

- 37A Protected Native Plants
- 38 Off Premises Signs
- 39 Use of State Lands
- 40A Prescribed Fire-Prescribed Burn

### **MINERAL RESOURCES**

- 44 Mined Land Reclamation
- 45 Oil and Gas Leasing on State Lands
- 46 Oil, Gas & Solution Mining Well Drilling

### **ENVIRONMENTAL PERMITS**

- 48 State Environmental Quality Review Act (SEAR)
- 49 Section 401 Water Quality Certification

### **ENVIRONMENTAL REMEDIATION**

- 51 Chemical Bulk Storage
- 51A Chemical & Hazardous Substances Spills
- 51C Chemical Bulk Storage Fee
- 56 Petroleum Bulk Storage
- 56A Oil & Petroleum Spills
- 56B Major Onshore Petroleum Facilities
- 56C Petroleum Bulk Storage Fee

**SOLID & HAZARDOUS MATERIALS** (Note: this program is part of the new Division of Materials Management as of the fall 2010)

- 25 Agency Registration to Apply Pesticides
- 25A Pesticide Product Registration
- 25B Pesticide Handling, Storage, Disposal and Safety
- 25C Prior Notification of Pesticide Applications and Posting of Commercial Lawn Application of Pesticides
- 26 Commercial Pesticide Applicator Certification
- 26A Pesticide Reporting Law
- 27 Aquatic Pesticide Permit
- 28 Waste Transporter Permit -- Transporting Regulated Wastes
- 30 Waste Transporter Permit -- Annual Report
- 31 Hazardous Waste Generators
- 31A Hazardous Waste Special Assessments
- 32 Hazardous Waste Generator Annual Report Requirements
- 33 Hazardous Waste Manifesting Program
- 34 Hazardous Waste Management Facility Permit
- 35 Control of Radioactive Materials
- 36 Low Level Radioactive Waste Transporter Permit and Manifest System
- 36A Waste Transporter Permits - Regulated Medical Waste
- 50A Landfills
- 50B Landfills -- Construction and Demolition Debris
- 50C Landfills -- Long Island
- 50D Landfill Gas Recovery Facilities
- 50E Transfer Stations
- 50F Recyclables Handling and Recovery Facilities
- 50G Land Application Facilities
- 50H Composting Facilities
- 50J Waste Tire Storage Facilities
- 50K Liquid Storage Facilities
- 50L Used Oil Facilities
- 50M Solid Waste Incinerators and Refuse-Derived Fuel Processing Facilities
- 50N Regulated Medical Waste Treatment, Transfer & Storage Facilities
- 50P Construction & Demolition Debris Processing Facilities
- 70 Hazardous Waste Reduction
- 71 Solid Waste Reduction
- 72 Universal Waste Rule

**WATER**

- 52 Coastal Erosion Management
- 53 Construction & Repair of Dams & Impoundment Structures
- 53A Public Safety Inspections of Dams & Impoundment Structures
- 54 Flood Plain Management
- 54A Use of Flood Control Lands

- 54B Operation of a Snowmobile or Motor Vehicle on Flood Control Lands
- 54C Flood Control Lands -- Usage Fees
- 54D\* Operation and Maintenance of Flood Protection Projects
- 55 Long Island Wells
- 57 Public Water Supply
- 58 Wastewater Discharge State Pollutant Discharge Elimination System (SPDES)
- 58B Storm Water General SPDES Permits
- 58C SPDES Discharge Notification Act Sign Posting & Public Notification
- 59 Wastewater Treatment Plant Operator Certification
- 60 Great Lakes Water Withdrawal Registration and Fees

### **REGULATORY FEES**

- 08A Air Quality Control Program Fees
- 08B Operating Permit Program Fees for Major Stationary Air Contamination Sources
- 29 Waste Transporter Permit: Regulatory Fees
- 31B Hazardous Waste Generator Fees
- 34A Hazardous Waste Management Facility Fees
- 44A Mined Land Reclamation Program Fees
- 58A SPDES Program Fees

\*NOTE: THESE REGULATIONS APPLY TO THE DEPARTMENT OF ENVIRONMENTAL CONSERVATION ONLY.

# Appendix C

## State Agency Environmental Audit Compliance Initiatives

**This Page is Intentionally Blank**

## **Appendix C: State Agency Environmental Audit Compliance Initiatives**

### Agriculture and Markets

- Initiated procedures to contract with a recycler of used electronics to take all non-working electronics

### Albany County Airport Authority

- Received the Environmental Quality Award for 2001 presented by EPA Administrator Christine Todd Whitman for the Airport's successful implementation of the first large scale airport deicing biological treatment system which can be used as a prototype for other public airports; and
- In 2002, hosted the Statewide Clean Cities Challenge showcasing the first airport clean fuel (CNG dedicated) fleet and station in New York State.

### Canal Corporation

- Evaluate new methods/procedures to speed up PBS compliance;
- Pursue funding from New York State to allow the implementation of a program for the remediation of sites where residual contamination is present from the past removal of non-complying fuel tanks;
- Continue training and development of guidance to assist our employees in environmental compliance; and
- Evaluate operations and infrastructure and update as necessary at wastewater treatment plants.

### Capital District Transportation Authority

- Use DEC prescribed "Integrated Pest Management System" applicators that are registered with the DEC; and
- Recycle all fluorescent bulbs.

### Children and Family Services

- Continue the Oil Tank Replacement Program;
- Renew all permits and registrations in a timely manner;
- Inform facilities of the requirements to post certain information conspicuously; and
- Continue to maintain vigilance to ensure facilities comply with the Environmental Conservation Law and the Department's Regulations.

### Correctional Services

- Continue to follow an aggressive Environmental Compliance Program to assure that compliance will be maintained; and
- All remaining non-compliance are either in design or construction phase.

### Development Authority of the North Country

- Incorporating environmental compliance items into a computerized maintenance management system;
- Monthly monitoring of compliance items; and
- Perform periodic audits and inspections of facility operations.

### Energy Research and Development Authority

- Continue to monitor all of the facilities, operations and projects it undertakes directly; and
- Implement all actions required by applicable environmental statutes, regulations, permits, orders and agreements.

### Environmental Conservation

- Continue Environmental Compliance as an Executive priority;
- Dedicate staff needed to provide engineering and planning services to accomplish environmental remedial projects;
- Undertake a management review of the "in-house" self-auditing processes;
- Ensure that environmental compliance is part of all work plans;
- Continue regional environmental compliance training sessions to help assure that facility managers understand applicable regulations;
- Implement Standard Operating Procedures to help field staff comply with environmental regulations and good practice; and
- Assure that appropriate personnel participate in all applicable training sponsored by the Pollution Prevention Unit.

### Environmental Facilities Corporation

- Continue the current level of management to assure future compliance will be maintained.

### General Services

- Continue to carefully monitor facilities to assure future compliance.

### Insurance Department

- Participates in the OGS “3Rs” program for the recycling, reuse, and recovery for solid waste management.

### Mental Health

- Continue to pursue compliance with all applicable Environmental Regulations through continued efforts to identify and correct violations;
- In process of entering into an agreement with EPA to become part of the Hospital Environmental Compliance Initiative and Voluntary Discovery/ Disclosure Program and to move it into the EMS process;
- Develop an Environmental Management System to make environmental compliance activities more generally understood and routinely accomplished. (An Environmental term consultant retained through DASNY is assisting with this effort);
- Include lump sum funding requests to complete environmental remediation work as well as pollution prevention initiatives; and
- Continue to make Energy Conservation/Emissions reductions a priority. 58% reduction in annual energy consumption over past 10 years has resulted in reductions of over 6000 tons of NO<sub>x</sub>, 8600 tons of SO<sub>2</sub>, and 3 million tons of CO.

### Mental Retardation and Developmental Disabilities

- Continue to monitor environmental impacts of all ongoing and new projects to ensure compliance with environmental laws and the accurate reporting in the annual DEC Environmental Audit.

### Metropolitan Transportation Authority

- MTA New York City Transit developed a database to track the generation, shipment and disposal of hazardous waste;
- MTA Metro-North Railroad introduced portable weatherproof drum containment equipment in train yards and on its right-of-way to prevent spills and storm water runoff contamination;
- MTA Long Island Railroad is researching bioremediation techniques to address petroleum contamination along its ROW caused by rail lubricators and minor leaks from railroad equipment;

- MTA Long Island Bus continued its purchase of clean fuel powered compressed natural gas (CNG) buses and expects to have its entire fleet running on CNG by the end of 2003;
- MTA Bridges and Tunnels retained the services of an environmental consultant to investigate, assess and recommend necessary actions to close out old historical spills at a number of their facilities. Bridges and Tunnels environmental staff is currently reviewing and evaluating draft closure reports;
- MTA New York City Transit has performed a drainage inventory at each of its petroleum bulk storage facilities;
- MTA Metro-North Railroad is replacing petroleum-based hydraulic fluid with a vegetable based oil at all station elevators that utilize hydraulic lifts;
- MTA Long Island Railroad has begun a project to delineate historic mercury contamination in 20 electrical substations;
- MTA Long Island Bus is utilizing new “green” design guidelines for the reconstruction of its Paratransit facility; and
- MTA Bridges and Tunnels is automating its petroleum bulk storage inventory system and connecting all tank alarm systems to a central monitoring command station.

#### Military and Naval Affairs

- Continue to ensure compliance with all local, State, and federal environmental regulations; and
- Ensure all petroleum bulk storage tanks are maintained and color coded in accordance with regulations.

#### Niagara Frontier Transportation Authority

- Continue environmental compliance-training program to upgrade employee knowledge of environmental regulations and compliance requirements;
- Incorporate pollution prevention programs to minimize sources of contamination; and
- Make capital improvements at various facilities which will incorporate improved pollution control equipment into operations.

#### Olympic Regional Development Authority

- Continue environmental compliance as an executive priority;
- Ensure that environmental compliance is a part of all work plans;
- Assure that all appropriate personnel participate in all applicable training and continuing education;
- Anticipate aging facility needs in capital planning to avert violating facilities; and
- Incorporate sound environmental practices and management into all operations and long term planning at all ORDA sports facilities.

### Parks, Recreation and Historic Preservation

- Receive money through the Clean Water/Clean Air Bond Act, allowing progress to be made bringing dams into compliance, beginning work on closure of landfills, and investigating and remediating subsurface discharge systems - SPDES;
- Continue progress on bringing petroleum bulk storage tanks into compliance. The identification of additional tanks requiring replacement is an ongoing process by the agency;
- Contact regional DEC staff to facilitate compliance and progress of projects; and
- Monitor environmental impacts of all projects.

### Port Authority of NY & NJ

- Implementation of “Best Management Practices”; and
- Continuation of facility Environmental Health and Safety Audits and staff training.

### Power Authority

- Continue on-going program to prepare, review, update and enforce environmental policies and procedures to ensure compliance with DEC’s environmental programs; and
- Continue commitment to the principles of waste minimization and pollution prevention to prevent environmental incidents before they occur;

### State Police

- Contract with OGS and private environmental consulting firms to provide environmental remediation services.

### State University of New York (SUNY)

- Continue to place a high priority on environmental stewardship, compliance with all applicable laws and regulations, and remediating any known instances of noncompliance;
- Continue monitoring of sites where underground tanks have been removed under DEC supervision;
- Get SPDES violations in compliance at Brockport, Buffalo, Cobleskill, Fredonia, and Morrisville;
- Get air program requirements for NSPS, permits, registration, emissions statements, etc. in compliance at Cobleskill, Delhi, HSC Brooklyn, Maritime, Old Westbury, Potsdam, and Purchase;
- Get into compliance with PBS, spills and other remediation at Buffalo, Cobleskill, Cortland, Geneseo, Morrisville, New Paltz, Oneonta, Purchase and Stony Brook;
- Get into Hazardous Waste Compliance at Buffalo, Morrisville and Stony Brook; and
- Continue planning, design and construction phases to be implemented as provided in the 2002 non-compliance reports and remedial plans.

### Thruway

- Evaluate the current remediation operations involving leaking underground petroleum storage tanks to see if new methods/procedures can speed up a return to compliance;
- Evaluate current operations and infrastructure and update where necessary at service wastewater treatment plants;
- Continue to develop and issue directions and/or forms to aid personnel in complying with environmental regulations; and
- Continue to closely monitor permit conditions.

### Transportation

- Utilize the NYSDEC database to facilitate electronic reporting of the audit;
- Continue to make internal improvements to facilitate the audit and will use the information to facilitate tracking, corrections, and targeting of potential focus areas for further emphasis in the future; and
- Added environmental staff in the environmental audit process as new environmental specialists were appointed in Construction and Transportation Maintenance Divisions in regions. These 20 senior environmental specialists dedicated to the Office of Operations will provide additional environmental expertise, awareness training and have significantly contributed in the identification and programming for corrections of compliance issues and assistance with environmental enhancements within their regions.

# Appendix D

## Glossary

**This Page is Intentionally Blank**

## **Appendix D: GLOSSARY**

**AGENCY** - See “State Agency”.

### **FACILITY**

All physical facilities owned, operated or maintained by an agency, including, but not limited to, the fixed assets as listed in the OGS Fixed Asset Building Inventory and Land Improvements Verification Listing, and offices located in buildings owned and operated by other parties (including agency offices located in State office buildings).

### **NON-COMPLIANCE**

Violation of the Environmental Conservation Law and/or regulations;  
conducting activities without required permits, certifications, approvals, etc.;;  
any violation of a permit, certification, approval, or regulatory standard or exceedance of an ambient air or water standard; or  
violation of the requirements of an administrative order, either on consent or after a hearing, or a judicial order.

### **OPERATION**

Activities undertaken by an agency, such as, bridge painting and/or repair, vegetation and/or pest control on rights-of-way, property, in buildings, fish stocking, lumbering on State-owned land, etc.

### **PROJECT (CONTRACT)**

An activity directly undertaken by an agency (including contracts with other parties), if such activity includes construction, re-construction, modification, rehabilitation, restoration, or similar activities (i.e., forest restoration, highway construction and/or major maintenance projects, major road or track repair, major building or grounds modification, repair, rehabilitation or restoration, etc.).

### **STATE AGENCY**

1. Each State department;
2. Division of Military and Naval Affairs; New York State Police; Division of Housing and Community Renewal; New York State Office of Children and Family Services; Office of General Services; New York State Office of Parks, Recreation and Historic Preservation; and State University of New York;
3. Any other division, board, commission, office, or bureau of the State which is required to obtain a permit or approval from the New York State Department of Environmental Conservation or which undertakes an activity for which it must register such department;
4. Albany Port District Commission; Battery Park City Authority; Capital District Transportation Authority; The Central New York Regional Transportation Authority; Dormitory Authority State of New York; New York State Environmental Facilities Corporation; Metropolitan Transportation Authority, New York State Energy Research and Development Authority; Olympic Regional Development Authority; New York State Thruway Authority; Empire State Development Corporation; Niagara Frontier Transportation Authority; Ogdensburg Bridge and Port Authority; The Port Authority of NY & NJ; Port of Oswego Authority; New York Power Authority; Roswell Park Cancer Institute; Rochester-Genesee Regional Transportation Authority; and

5. any other major agency, public authority or public benefit corporation which performs a State function and which is identified by the Commissioner of the Department of Environmental Conservation for the purpose of complying with the environmental audit requirements.

**THIRD-PARTY VIOLATIONS**

Those violations committed by lessees or other (third) parties on properties owned and/or under the jurisdiction or control of the agency.

# Appendix E

## NYSDEC Regions

**This Page is Intentionally Blank**

## **Appendix E: NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION (NYSDEC) REGIONS**

### **NYSDEC Region 1**

Nassau and Suffolk Counties.

SUNY Campus, Building 40, Stony Brook, NY 11790, (631) 444-0345

### **NYSDEC Region 2**

Bronx, Kings, New York, Queens and Richmond Counties.

1 Hunters Point Plaza, 47-40 21st Street, Long Island City, NY 11101, (718) 482-4900

### **NYSDEC Region 3**

Dutchess, Orange, Putnam, Rockland, Sullivan, Ulster and Westchester Counties.

21 South Putt Corners Road, New Paltz, NY 12561-1696, (845) 256-3000

### **NYSDEC Region 4**

Albany, Columbia, Delaware, Greene, Montgomery, Otsego, Rensselaer, Schenectady and Schoharie Counties.

1150 North Westcott Road, Schenectady, NY 12306-2014, (518) 357-2234

### **NYSDEC Region 5**

Clinton, Essex, Franklin, Fulton, Hamilton, Saratoga, Warren and Washington Counties.

Route 86, PO Box 296, Ray Brook, NY 12977, (518) 897-1200

### **NYSDEC Region 6**

Herkimer, Jefferson, Lewis, Oneida and St. Lawrence Counties.

317 Washington Street, Watertown, NY 13601, (315) 785-2238

### **NYSDEC Region 7**

Broome, Cayuga, Chenango, Cortland, Madison, Onondaga, Oswego, Tioga and Tompkins Counties.

615 Erie Boulevard West, Syracuse, NY 13204-2400, (315) 426-7400

### **NYSDEC Region 8**

Chemung, Genesee, Livingston, Monroe, Ontario, Orleans, Schuyler, Seneca, Steuben, Wayne and Yates Counties.

6274 East Avon-Lima Road, Avon, NY 14414, (585) 226-2466

### **NYSDEC Region 9**

Allegany, Cattaraugus, Chautauqua, Erie, Niagara and Wyoming Counties.

270 Michigan Avenue, Buffalo, NY 14203-2999, (716) 851-7000
