1.0 INTRODUCTION

The Dunn Mine and Construction & Demolition Debris Facility (Dunn Facility or Facility) is an existing mining operation and construction and demolition debris (C&D) disposal facility located in the Town of North Greenbush and the City of Rensselaer, New York. The Facility is owned and operated by S.A. Dunn & Company, LLC (S.A. Dunn) pursuant to a Mined Land Reclamation and Solid Waste Management Permit issued by the New York State Department of Environmental Conservation (NYSDEC) (Permit DEC #4-3899-00006/00006). The Facility's permit was initially issued on July 20, 2012, and renewed on September 9, 2016, with a stated expiration date of July 20, 2022. S.A. Dunn seeks a permit renewal for both its mining and C&D disposal operations. It submitted a Mined Land Permit Reclamation Permit renewal application for the Dunn Facility in August 2021, which will be processed with its Part 360 Solid Waste Management Facility renewal application.

The permit renewal will not change or expand the mining or landfill operational conditions. However, as required by a June 2019 Consent Order (R4-2019-0409-24) entered into between S.A. Dunn and NYSDEC, S.A. Dunn is seeking to modify the existing Facility permit by incorporating construction of a mechanically stabilized earthen (MSE) perimeter berm on the northern portion of the site. A permit modification application for the MSE berm was originally submitted to NYSDEC on May 21, 2021, and is being resubmitted in conjunction with the Facility's permit renewal application for administrative convenience with adjustments to reflect recently approved changes to the phasing of operations. The proposed MSE berm will be higher in elevation than the currently permitted perimeter berm and decreases the visibility of the Facility, particularly for properties to the north, as compared to the current permitted conditions. The modification will not increase permitted airspace for landfill operations; it will in fact reduce the C&D disposal area by 1.2 acres. The area associated with the life of mine boundary will also be reduced by 0.98 acres to accommodate the berm.

NYSDEC has determined that the permit renewal and modification is subject to Commissioner Policy-29 (CP-29), Environmental Justice and Permitting based on updates the agency issued in May 2021 to the Potential Environmental Justice Areas (PEJAs). CP-29 requires preparation of Part I of a full environmental assessment form (EAF), which is being submitted with the permit renewal application. CP-29 also provides for public participation in conjunction with the NYSDEC permit renewal review. This includes opportunities for residents to become informed about and provide comments on the permit renewal and modification.

In accordance with CP-29, this Public Participation Plan outlines the steps S.A. Dunn will undertake to inform the local community and the broader public about existing Facility operations, the permit renewal, and the proposed berm, and to invite vigorous participation in the permitting review process.

2.0 FACILITY DESCRIPTION

The Dunn Facility occupies approximately 90 acres. Its activities include sand and gravel mining (since the 1800s) and C&D disposal (since 2015). In addition to the mining and C&D disposal areas, the Facility includes an entrance road, access roads, a scale house and scales, a sediment pond, a maintenance garage, and buildings used as office space.

Pursuant to its permit, the Dunn Facility operates from 6:30 am to 5:30 pm on Monday through Friday. Operations are not conducted on Saturdays, Sundays, or federal holidays. The Facility is permitted for up to 100 truck round trips per day.

Sand and gravel mining operations are conducted within the permitted life of mine boundary (73.34 acres). Upon achieving the permitted mine excavation limits, C&D disposal areas (cells) are constructed within the permitted limits, and the finished cell construction constitutes reclamation of the mined area. The currently permitted C&D disposal area encompasses 63.3 acres. The Facility disposes of C&D from the Capital Region, broader New York State, and neighboring states. S.A. Dunn has invested in state-of-the art environmental technology, including a gas collection and control system, matting, hydro mulch, an enhanced dust control water gun, and water trucks, to minimize the potential for offsite impacts from its mining and C&D operations.

As discussed in the EAF, S.A. Dunn is an active member of the City of Rensselaer and other surrounding communities. It pays host fees to the City of Rensselaer and the Town of North Greenbush based on the tonnage of waste accepted. The Facility also patronizes local vendors for equipment, materials and services, as well as regularly donates to local organizations including City of Rensselaer schools, Circle of Miracle, CoNSERNS-U/Tri-County Catholic Charities and the City of Rensselaer/Christmas in the City.

2.1 FACILITY COMPLAINT PROCEDURE

Residents are encouraged to contact the Dunn Facility if they believe they are being impacted by Facility operations. The Facility maintains a 24-hour telephone line (**518-292-0449**) for residents to call and report issues or concerns. This telephone number is posted on a sign at the entrance facility and is also shown on the website (www.dunnminecd.com/contact-us). All complaints will be recorded and responded to, in a timely manner, by Facility staff.

Public comments or questions on the Facility permit renewal and modification application should not be reported on this phone line. A separate phone number and e-mail address for comments on the permit renewal and modification application are provided in Section 5.0.

3.0 DESCRIPTION OF PERMIT RENEWAL AND MODIFICATION

As explained above, the permit renewal will not change or expand existing operations of the mine or landfill. The Facility currently receives approximately 580,000 tons of waste annually and has an overall capacity of approximately eleven (11) million cubic yards of waste. The total tonnage of waste accepted per day is within the existing permit and operating constraints.

In connection with the permit renewal process, and as required under the June 2019 Consent Order (R4-2019-0409-24) entered between S.A. Dunn and NYSDEC, S.A. Dunn seeks to construct an MSE berm on the northern portion of the site that will decrease its visibility. The proposed berm alignment will reduce the permitted C&D disposal area by 1.2 acres and the life of mine boundary by 0.98 acres. It will further decrease the permitted C&D disposal volume by approximately 220,000 cubic yards, thereby reducing the site life by approximately 4 months.

In May 2021, S.A. Dunn submitted the following documents associated with the berm to NYSDEC for review and approval:

- Full Environmental Assessment Form
- Part 360 Permit Modification Application
- Mining Permit Application
- Stormwater Pollution Prevention Plan

NYSDEC has not acted on this submission. Thus, a revised permit modification application, as well as Environmental Assessment Form, mining permit application, and Stormwater Pollution Plan, are now being incorporated into the Dunn Facility's permit renewal application for administrative convenience.

4.0 RELEVANT GEOGRAPHIC CONTEXT

The Dunn Facility is located within the Town of North Greenbush and the City of Rensselaer. In May 2021, NYSDEC updated its PEJAs to include an area south of Partition Street, between Broadway and Partition Street Extension. The PEJA also extends north of Partition Street on the west side of Broadway, where it is bound to the north by a rail bridge extending over the Hudson River. The PEJA does not extend into or about the Dunn Facility.

Vehicles accessing the Facility from Rensselaer travel within the PEJA along Broadway and Partition Street, before leaving the PEJA where Partition Street becomes Partition Street Extension. S.A. Dunn has thus reviewed the CP-29 guidelines in preparing a proactive, enhanced program for engaging community organizations and residents in the Partition Street area.

A map depicting the PEJA in relation to the Dunn Facility is provided in Appendix D.

5.0 S.A. DUNN CONTACT

Please submit comments or questions on the permit renewal and modification application directly to Curt Taylor (the primary contact for this process) at the email address and/or phone number listed below:

Curt Taylor
Dunn Mine and C&D Facility
209 Partition Street Extension
Rensselaer, NY 12144
Email: Dunn.Public@wasteconnections.com
PH: (518) 243-8015
www.dunnminecd.com

Concerns or complaints about Facility operations should be reported as described in Section 2.1—not to the phone number and email address listed above.

6.0 STAKEHOLDERS

In accordance with the process outlined in CP-29, S.A. Dunn has identified a list of stakeholders to the proposed action, including local elected officials, school representatives, community-based organizations, and local environmental groups. Residents and businesses located within a one-mile radius of the site, as well as along the truck route from the Dunn Memorial Bridge to the Facility, are also included as stakeholders (see Figure 2 in Appendix D). These lists, which may be supplemented as necessary, are included in Appendix A and includes contact information for all parties. Local media outlets are also included within Appendix A, and may be contacted for the purposes of publicizing the public information meeting described in Section 8.0.

Stakeholders will receive three weeks-notice of a public meeting via email and/or U.S. mail. The notice will include a fact sheet and meeting flyer with a description of the Dunn Facility, an explanation of the permit renewal and modification application, and instructions on participating in the public meeting. The draft Public Involvement Fact Sheet and Public Meeting Notice are provided in Appendices B and C, respectively.

An up-to-date stakeholder list will be kept at the Dunn Facility and will be made available to the NYSDEC upon request at any time. An updated stakeholder list will also be included in progress reports submitted to NYSDEC.

7.0 DISTRIBUTION AND POSTING OF WRITTEN INFORMATION

Three weeks prior to a public meeting, the stakeholders identified in Section 6.0 will receive notice of the meeting via email or U.S. mail. The notification (which will include a fact sheet and meeting flyer) will provide a description of the Dunn Facility, an explanation of the permit renewal and modification application, and instructions on participating in the meeting, including the time and location, and information on participating virtually.

The fact sheet and meeting flyer will also be posted on public information boards at the Rensselaer Public Library, located at 676 East Street, Rensselaer, New York, and the Rensselaer City Hall, located at 62 Washington Street, Rensselaer, New York, as well as provided to the broader community on the Dunn Facility website (www.dunnminecd.com).

A draft summary of this written information, written in plain English, is included as Appendices B and C. A map outlining tax parcels within the one-mile radius of the Facility and along the truck route from the Dunn Memorial Bridge to the Facility that will receive mailers is included in Appendix D as Figure 2.

8.0 PUBLIC INFORMATION MEETING

Two public information meetings will be held, pursuant to the procedures described below, to inform the public about the Dunn Facility and engage them in the permit renewal and modification review process. A public information meeting notice is included as Appendix C. The first public meeting will be held after NYSDEC approves this Public Participation Plan but prior to the permit renewal and modification application being deemed administratively complete. The second meeting will be held during NYSDEC's 30-day comment period on the draft permit. Additional public meetings may be held at the discretion of the NYSDEC.

Notification

Meetings will be announced at least three weeks in advance via email and/or U.S. mail, as appropriate, to the Stakeholder list (see Appendix A) and postings on the Dunn Facility website. The fact sheet and meeting flyer distributed to the stakeholders will also be posted on public information boards at the Rensselaer Public Library and Rensselaer City Hall. Public notice of the meetings will be supplied to the media outlets included in the Stakeholder list (see Appendix A). The notifications will be posted to the Dunn Facility website within 24 hours of distribution of the physical notices.

Application materials will also be made available on the Dunn Facility website at least three weeks prior to the first public information meeting.

Timing

The meetings will be scheduled for weekday nights that do not coincide with major religious or secular holidays. The first and second meeting will be held at different times to accommodate members of the public who may work different shifts. For example, if the first meeting is held during the period between 6:00 pm and 9:00 pm, the second meeting will be held during the day, generally between 11:00 am and 1:00 pm, unless otherwise determined as a result of discussions with stakeholders.

Location

Meetings will likely be held in a hybrid in-person and virtual (via video conference) format to support convenient participation by stakeholders and in light of the COVID-19 pandemic. The meetings will be held in-person at the Rensselaer Junior/Senior High School, located at 25 Van Rensselaer Drive in Rensselaer, New York, which is an ADA accessible facility. Public transportation near the school is available and provided by the Capital District Transportation Authority (CDTA). The video conference will be conducted simultaneously with the in-person meeting, including any Question & Answer sessions that may extend beyond the Facility's presentation. The virtual platform hosting the video conference will have recording capabilities.

Summary and Follow-Up Information

A recording of the public information meeting will be posted to the Dunn Facility website in a timely manner. As needed, S.A. Dunn will also provide timely written responses to issues or concerns raised during the meetings, including those submitted within the virtual meeting forum, to the Dunn Facility website, and by mail from meeting participants. The responses will also be added to the public repositories described in Section 9.0.

9.0 DOCUMENTATION REPOSITORIES

S.A. Dunn will establish a virtual document repository to make available pertinent information relation to the permit renewal and modification on the Dunn Facility website. This information includes permit renewal and application materials, meeting presentation materials, and media releases. The availability of documents will be publicized at the aforementioned public information meeting(s).

These materials will also be available in hard copy at the Rensselaer Public Library, located at 676 East Street, Rensselaer, New York.

10.0 PROGRESS REPORTS

S.A. Dunn will submit periodic written updates to NYSDEC. The reports will include, among other items, any public documents produced during the previous period, recordings of any formal public meetings, the current stakeholder list, descriptions of other outreach activities, and any other work completed in the permitting progress. The progress reports will be posted on the Dunn Facility website and placed in the repository(ies).

11.0 FINAL REPORT

S.A. Dunn will prepare a final report certifying in writing that the public participation process was completed in conformance with the NYSDEC-approved Plan prior to a final decision being made on the permit renewals and modifications. The report will also include the full record of documents produced for the process and recordings of meetings included as appendices. The final report will be posted on the Dunn Facility website and placed in the repository(ies).

APPENDIX B
PUBLIC INVOLVEMENT MEMO

Proposed Dunn Mine and C&D Facility Permit Renewal and MSE Berm Modification Fact Sheet

S.A. Dunn & Company, LLC (S.A. Dunn) submitted an application to renew and modify the existing permit (Permit DEC #4-3899-00006/00006) for the current Dunn Mine and C&D Facility located at 209 Partition Street Extension in Rensselaer, NY. As part of the application process, S.A. Dunn is required to notify the public about this proposed permit renewal and modification and give the public the opportunity to comment.

Why does S.A. Dunn need to renew the permit? The Facility's permit was initially issued on July 20, 2012, and renewed on September 9, 2016, with a stated expiration date of July 20, 2022. As required by the NYSDEC regulations, an application to renew the permit must be submitted 180 days before the permit expiration date.

Why does S.A. Dunn need to modify the permit? As required by a June 2019 Consent Order (R4-2019-0409-24), S.A. Dunn seeks to modify the existing facility permit by incorporating construction of a mechanically stabilized earthen (MSE) perimeter berm on the northern and eastern side of the site. A permit modification application was previously submitted to NYSDEC on May 21, 2021, but it is being resubmitted as part of the permit renewal application for administrative convenience.

How might the permit renewal and modification affect the surrounding community? The proposed permit renewal and modification will:

- not result in any change to permitted mining or C&D disposal operations;
- decrease the overall landfill acreage by 1.2 acres;
- decrease waste capacity by approximately 220,000 cubic yards;
- decrease the life of mine area by 0.98 acres;
- include the construction of a MSE berm, including a perimeter access road and stormwater management controls, along the northern and eastern perimeter of the landfill area; and
- decrease visibility of the Facility, particularly for properties to the north, as compared to the current permitted conditions.

Who is responsible for reviewing the permit application? The New York State Department of Environmental Conservation, Division of Environmental Permits, 1130 North Westcott Street, Schenectady, New York 12306, (518) 357-2234, is responsible for reviewing the permit renewal and modification application.

How can I participate in the permit renewal and modification review process? You may provide comments at public meetings or in writing during public comment periods. Call the S.A. Dunn contact listed below or visit the Dunn Facility website (<https://www.dunnminecd.com/>) for information on public meetings and comment period dates.

Where can I get more information about the proposed expansion?

- Visit the repository located at the Rensselaer Public Library, 676 East Street, Rensselaer, New York or access the permit application materials online on the Dunn Facility website.
- Attend a public meeting about the permit application.
- Call or write to the S.A. Dunn Contact: Curt Taylor, Dunn Mine and C&D Facility, 209 Partition Street Extension, Rensselaer, New York 12144, (518) 243-8015, Dunn.Public@wasteconnections.com

APPENDIX C
PUBLIC MEETING NOTICE

Community Meeting Regarding Dunn Mine and C&D Facility Permit Renewal & MSE Berm Modification Application

Opportunity to provide input into the permit application by S.A. Dunn & Company, LLC.

Hosted by S.A. Dunn & Company, LLC

Location: Virtual and In-Person at Rensselaer Junior/Senior High School
25 Van Rensselaer Drive, Rensselaer, New York 12144

DATE: June 14, 2022 / 7:00 PM to 9:00 PM Eastern Time

Virtual Meeting Link: <https://wasteconnections.zoom.us/j/91932452654> or via Telephone (929) 436 2866
Webinar ID: 919 3245 2654

Facility Overview:

The Dunn Mine and Construction & Demolition Debris Facility (Dunn Facility or Facility) is an existing, mining operation and construction and demolition debris (C&D) disposal facility located at 209 Partition Street Extension, Rensselaer, New York 12144. S.A. Dunn & Company, LLC (S.A. Dunn) is in the process of seeking a permit renewal, which will not change or expand its current mining or C&D disposal operations. S.A. Dunn also seeks to modify the Facility permit by incorporating the construction of a mechanically stabilized earthen perimeter berm on the northern and eastern side of the site that will reduce its visibility.

What Happens at a Public Information Meeting?

- Get information about the existing Facility operations, the proposed berm, and the permit renewal application.
- Talk to representatives from the Dunn Facility.
- Provide comments about the permit renewal and the proposed berm.
- Have your questions answered about the permit renewal process and the proposed berm.

Information and Contacts:

- Public Information Repositories, including the permit application are located at:
 - NYSDEC Region 4 Headquarters
