

# HUDSON RIVER STRIPED BASS COOPERATIVE ANGLER PROGRAM ONLINE LOGBOOK

## Instructions for Installation and Completion

---

The Hudson River Striped Bass Cooperative Angler Program provides us with additional data on the recreational striped bass fishery. The survey offers anglers the opportunity to participate in a research project that is essential for effective management of our Hudson River fishery, and at the same time allows participants to keep records of their fishing trips for their own use.

### **Accurate and inclusive data is the key to successful management!**

Please record as much fishing information as possible, including all species encountered. **Even if no fish are caught during your trip, please make sure to still submit a log.** This will be calculated as a “Zero Catch” and is important for calculating fishing effort.

Please follow the instructions below to download **Survey123 for ArcGIS** and find how to complete your logbook. **Thank you for your participation and we’re looking forward to future collaboration!**

# How to Download Survey123

## Downloading for Desktop (Windows, MacOS & Linux)

If you will be completing the survey from your computer, you need to install Survey123 for Desktop.

- Visit the Survey123 website (<http://doc.arcgis.com/en/survey123/download/>) to download and install the appropriate version of the software for your computer from the Survey123 field app section.
- Once installed, click or copy the following into a web browser to open the Hudson River Striped Bass Cooperative Angler Program (SBCAP) survey: <https://survey123.arcgis.com/share/c9c4d2bc8997422fb4d7a7ad20e3e28a?portalUrl=https://nysdec.maps.arcgis.com&open=menu>
- Select “Open in the Survey123 field app” to open the Striped Bass Cooperative Angler Program Survey.
- Survey123 for ArcGIS should now be on your computers desktop, and you can submit future trips by opening the survey from your desktop.

## Downloading from App Store (iOS)

If you will be completing the survey from your Apple device, you need to download the Survey123 for ArcGIS.

- Open ‘App Store’, use the search function to find **Survey123 for ArcGIS** and begin downloading.
- Once installed, either use your mobile device’s camera to scan QR code to access Hudson River SBCAP Logbook, click or copy the following link into a web browser on your phone to open the survey:
- Select ‘**Open in the Survey123 field app**’ to open the Hudson River SBCAP Survey. <https://survey123.arcgis.com/share/c9c4d2bc8997422fb4d7a7ad20e3e28a?portalUrl=https://nysdec.maps.arcgis.com&open=menu>

Hudson River SB CAP QR Code

**Note:** If you open the app before following the QR code or web link, it will ask you to sign in. You should not need to do this.

## Downloading from Google Play (Android)

If you will be completing the survey from your Android device, you need to download the Survey123 to ArcGIS.

- Open ‘Google Play’, use the search function to find **Survey123 for ArcGIS**, and begin installing.
- Once installed, either use your mobile device’s camera to scan QR code to access Hudson River SBCAP Logbook, click or copy the following link into a web browser on your phone to open the survey: <https://survey123.arcgis.com/share/c9c4d2bc8997422fb4d7a7ad20e3e28a?portalUrl=https://nysdec.maps.arcgis.com&open=menu>

# How to Complete the Hudson River Striped Bass Cooperative Angler Program Online Logbook

---

All fields with a **\*Red Asterisk\*** are required. Your survey will not be submitted without all required fields.

## Cooperative Angler Information:

1. Enter your Last Name, First Name, and Email (optional).

## Trip Information:

2. Select the Date and Start Time of your fishing trip.
3. Please specify the total hours fish for Herring and Striped Bass to the nearest 15 minutes. Then use the clock to select the time when you are done fishing.
4. Type the total Number of Anglers that *actively* fished.
5. Check the boxes to indicate the Tide(s) experienced while fishing.
6. Check the boxes to indicate the type of Bait used. (Select all that apply)
7. If Herring was used as bait, complete the If herring was used for bait section below. If Herring was not used, leave this section blank.
8. Check the boxes to indicate the Hook Type used while fishing. (Select all that apply). If "Other" is selected, type what was used in the designated box.
9. Indicate the place where you Fished From.
10. Type the Depth (in feet) you primarily fished from.
11. Type the Water temperature (in Fahrenheit).
12. Type the Location you fished from. If location is not known, indicate the nearest buoy number.
13. Specify Primary Target Species by typing in the field and select from list.
  - Specify Secondary Target Species, if any.
14. For Zero Catch, indicate if you caught fish during this trip.
  - At this time, if you did not catch any fish, skip to Step 25 for instructions on submitting your survey.

### Total Species Catch Summary:

If you caught fish during your trip, use this section to indicate the amount of legal and not legal fish caught (please remember to include the fish you took individual information from in the totals).

15. Specify Common Name of the species caught. Begin typing and select from list.
16. Enter the total number of Legal Size and Not Legal Size fish caught.
17. Enter the total number of fish Kept.
18. If more than one species were caught, use the  $\pm$  to provide a summary of the additional species caught.

### Individual Fish Caught Information:

If you collected information (length, weight, etc.) on individual fish during your trip, you can fill out an entry for each individual fish caught (optional).

19. Specify the Common Name of the species caught, begin typing the name and select from the list.
20. If available, indicate the Total Length and Weight of fish caught to the nearest 0.25 inches or pounds.
21. Indicate if you Kept your fish by selecting Yes (kept) or No (released).
22. Type any Comments you may have about your fish, including lesions. If you caught a Tagged Striped Bass, record the tag number and agency here.
23. If more than one fish was caught, use the  $\pm$  symbol to provide information about another fish, or move on to the next section.

### Bycatch and Trip Details:

24. Use these sections to record any Bycatch or additional Trip Details you may have (wind, weather conditions, etc.).
25. Click on the Submit button (web browser) or Green Check (app) to complete your survey.

**Please continue to the next page for more detailed  
“Screenshot Instructions”.**

Approximate Area (ex. Esopus Flats, Catskill Creek, Mid-Hudson Bridge, buoy #16, etc.)

12

Fishing trips South of the George Washington Bridge should be reported to the Marine Fisheries Cooperative Angler Program (<https://www.dec.ny.gov/outdoor/7899.html>).

**Step 13:** Specify 'Primary Target Species' by typing in the field.

Specify a 'Secondary Target Species', if any.

**Step 14:** Check "Yes" if you did NOT catch fish. Check "No" if you CAUGHT fish. (go to step 15).

If no fish were caught, you can click on the Green Check to submit your survey.

Primary Target Species \* **13**

Secondary Target Species

Zero Catch \* **14**

Did you catch fish on this trip?

Yes

No

## Total Species Catch Summary

For **each species** caught, use this section to indicate how many individuals were legal or not legal.

**\*Please remember to include any fish you took individual information from in the totals.**

**Step 15:** Type the 'Common Name' of the fish caught.

**Step 16:** Type the number of 'Legal' size fish (of this species) caught and the number of 'Not Legal' fish caught.

**Step 17:** Type the total number of fish (of this species) that were 'Kept'.

Note: '# Caught' will automatically update, manual input is not needed.

**Step 18:** If more than one species was caught, use the '+' to provide a summary of additional species caught.

▼ Total Species Catch Summary

▼ How many fish of each species did you catch?

Common Name \* **15**

For additional species caught use the + sign at the bottom right of this window.

# of Legal Size \* **16**

# of Not Legal Size \* **16**

# Kept \* **17**

# Caught
