SECTION II: REASON FOR SUBMITTAL - Check the box that applies to your operation

- This operation has been terminated, all animals have been removed from the premises, and all closure requirements under all applicable NRCS standards have been completed.

- This operation has between 200 and 299 mature dairy cattle and no other animal numbers that are above the CAFO threshold as defined in Appendix A of GP-0-22-001. This facility **does not** have a discharge from the production area. I understand that this facility will be inspected by the Department for discharges before this general permit is terminated. To maintain a no discharge status, this facility will continue to manage nutrients in accordance with a nutrient management plan that is annually updated by a AEM certified planner.

The number of animals confined at this time: _____

- This operation is below the animal threshold requirements of the SPDES General Permit for CAFOs but the structural facilities will be maintained and all residual wastes from the CAFO facility handled in accordance with a nutrient management plan.

The number of animals confined at this time: _____

- Other.

Explain: _____
