Name_____ Class_____

# Discover Your Watershed

What waterbody is closest to your school?

What is in your watershed? (ex. Farm fields, residential, commercial, factories)

List an example of an impervious surface and a pervious surface in your watershed?

What body of water does your watershed eventually drain to? What path does it take?

| **Possible Nonpoint Source Pollution** | **Type of Pollutant? (Trash, Pathogen, Nutrient & Sediment, Toxics)** | **Possible Point Source Pollution** | **Type of Pollutant?** |
