Hunting Hours
Big game hunting hours are 1/2-hour before sunrise to 1/2-hour after sunset (see page 80). Sunday hunting is allowed in all areas of New York. Before hunting on state lands, confirm regulations for the area.

Fluorescent Orange and Fluorescent Pink Clothing Requirements
Any person hunting deer or bear with a firearm or a person who is accompanying someone hunting deer or bear with a firearm shall wear:
1. a minimum total of 250 square inches of solid fluorescent orange or fluorescent pink material worn above the waist and visible from all directions; or
2. a minimum total of 250 square inches of patterned fluorescent orange or fluorescent pink consisting of no less than 50% fluorescent orange or fluorescent pink worn above the waist and visible from all directions; or
3. a hat or cap with no less than 50% of the exterior consisting of solid fluorescent orange or fluorescent pink material and visible from all directions.

Legally Antlered Deer
A legally antlered deer must have at least one antler that is 3” or longer. Antlerless deer are those without antlers (does and fawns) and deer with antlers less than 3” long. Special regulations apply in the Antler Restriction areas. See page 24 for details.

Defining “Early” and “Late” Seasons for Deer and Bear
When you see the term “early” muzzleloader or bowhunting season, it means before the regular season for that particular zone. “Late” means after the regular season for that zone.

Feeding and Baiting Prohibited
Intentional feeding or baiting of deer or bear is prohibited at all times of year. This includes use of mineral blocks or powders. Exempt activities include agricultural plantings, wildlife food plots, and cutting of trees or brush to provide winter forage.

Chronic Wasting Disease (CWD) Import Restrictions
Hunters are prohibited from returning to New York with whole carcasses or intact heads of deer, elk, moose, or caribou that they harvest anywhere outside of New York. Only the deboned meat, cleaned skull cap, antlers with no flesh adhering, raw or processed cape or hide, cleaned teeth or lower jaw, and finished taxidermy products of CWD-susceptible animals may be brought into New York.

Manner of Taking
Big game may be taken with centerfire rifles, shotguns, handguns, muzzleloading firearms, bows, and crossbows during appropriate seasons and in designated areas (see maps, pages 24 and 25). You may use decoys, calls, and attractant scents to hunt big game.

It is unlawful to:
- Take big game while the deer or bear is in water.
- Possess a firearm of any description when bowhunting or accompanying a person bowhunting during an archery-only season.
- Possess a firearm other than a muzzleloading firearm when hunting deer or bear or when accompanying a person hunting deer or bear during a muzzleloading season.
- Make, set, or use salt licks or other attractants, whether block, liquid, or powder that contains any amount of salt, upon lands inhabited by deer or bear at any time of year.

In addition to the general hunting regulations for manner of take listed on page 14, it is unlawful to hunt big game with:
- Dogs or aircraft of any kind, including drones.
- The aid of a pre-established bait pile.
- A firearm or bow aided by any artificial light or a laser that projects a beam toward the target (use of illuminated reticle scopes, red dot scopes, or illuminated sight pins is allowed, provided no light is projected toward the target).
- An autoloading firearm with a capacity of more than 6 shells (one which requires that the trigger be pulled separately for each shot), except an autoloading pistol with a barrel length of less than 8 inches.
- A firearm using rimfire ammunition.
- A shotgun of less than 20 gauge or any shotgun loaded with shells other than those carrying a single projectile (rifling in the barrel or choke is allowed).
- A bow with a draw weight less than 35 lbs.
- Arrows with barbed broadheads; arrowheads less than 7/8 inches at the widest point or with less than 2 sharp cutting edges.
- Double-barreled muzzleloaders or percussion cap revolvers during the special muzzleloading seasons.
- An air gun or air bow.

Deer Management Focus Area
See www.dec.ny.gov/outdoor/82382.html for information on the Deer Management Focus Area in Tompkins County. Expanded antlerless bag limits and a January antlerless season in this area provide additional opportunities for hunters and help to reduce deer-related conflicts.

Long Island Opportunities
All hunting on state-managed land requires a DEC permit. The archery deer season runs from October through January. There is a January firearms season during which shotguns and muzzleloading firearms can be used. Firearms users must obtain a landowner’s endorsement to hunt during this season, and may also need a town permit. For more information on Long Island hunting opportunities visit www.dec.ny.gov/outdoor/8373.html.

Prohibited Sale of Deer or Bear Meat
It is unlawful to sell deer or bear meat. Other than meat, the parts (e.g., hides, skulls, claws, antlers, and taxidermy mounts or rugs) from legally taken and reported deer and bear may be sold. Bear gallbladders and bile shall not be possessed or sold unless a valid bear tag (original or copy) is attached.

Meat Unfit for Consumption
If a deer, bear, or turkey is found to be unfit for human consumption, a special permit may be issued that allows the hunter to take another deer, bear, or turkey, provided the season is still open. The entire animal, including the antlers, must be forfeited to get a permit. A permit will not be issued if the meat is unfit due to hunter neglect. Call a Regional Wildlife office or Law Enforcement office listed on page 6.

Tagging, Reporting, and Transporting
Deer and bear are in legal possession only when tagged with the appropriate carcass tag, valid for that season, implement, and sex of animal. See page 26 for clear tag descriptions.

Hunters who take a deer in remote areas may wish to bone it out and pack out the meat. This is lawful, but you must retain the carcass tag with the boned out meat.

Tagging and Reporting
After killing a deer or bear:
1. Ensure that you select the proper tag for the harvested deer or bear.
2. Immediately fill in all information and sign the carcass tag with ink that won’t erase.
3. Immediately cut or mark the month and date of kill on the tag reverse.
4. Write the date of kill on the report panel. This will help you when reporting a harvest.
5. Attach the tag to the carcass upon arrival at your camp, home, or vehicle. You do not need to attach the tag while it is being

Continued on page 18
dragged or physically carried from the place of kill to a camp or point where transporta-
tion is available.
6. **Report your harvest** online, by phone, or mobile app within 7 days as required by law. See page 8 for details.

After you have used your last deer tag, you may help others hunt deer. You must have your hunt-
ing license with you, and you may not shoot or attempt to shoot a deer.

### Transporting
Deer and bear may be transported either inside or outside the vehicle.
- A deer carcass with head and deer carcass tag attached may be transported with the taker in attendance.
- If someone other than the taker is transporting the deer or bear, the taker must attach an additional tag to the carcass and include the names and addresses of both the taker and the transporter. The tag may be handwritten in ink or typed on any paper.
- All portions of deer or bear meat being transported by the taker shall be individually tagged and the tags shall include the name, address, big game DOC #, the date that the portions were cut, and the signature of the taker. Packaged or boxed portions of veni-
son need only one tag and must be labeled “venison” on the outside of the box. If someone other than the taker is transporting the por-
tions, an additional tag signed by the taker with the names and addresses of the con-
signee and taker are required for each portion.
- Non-resident hunters: if your home state pro-
hibits the importation of whole deer carcasses from New York, you will need to follow the above guidelines for transportation of indi-
vidual or packaged portions of deer meat while in New York State.
- A deer carcass minus the head may be trans-
ported as above, but evidence of the sex of the deer must be intact. The deer carcass tag must be affixed to the carcass, and a tag supplied by the taker must also be attached showing the name and address of the taxi-
dermist where the head was sent.
- Heads of male deer may be transported to a taxidermist only if a tag supplied by the taker is attached bearing the taker’s signature, address, big game DOC #, number of points on each antler, and the name and address of the taxidermist.
- The head of a doe with antlers that are 3 inches or more can be removed for mounting. Follow the same procedure that you would use for mounting a buck (see above).

### Muzzleloader Hunting
Muzzleloading firearms may be used during the muzzleloader and regular seasons, and during the January Firearms season on Long Island.
- Hunters must possess a current muzzleloader privilege to participate during the muzzle-
loader seasons.
- The muzzleloader privilege is not needed for hunters to use a muzzleloading firearm during regular seasons.

### Broadheads for Big Game

  - Blades pivot forward (no longer barbed)
  - Blades do not pivot (remain barbed)

Hunters can help end hunger in New York State

Each year, DEC partners with Feeding New York State and the Venison Donation Coalition to provide food for those in need. Through a cooperative relationship involving hunters, deer processors, the NYS Dept. of Health, and non-profit organizations like Feeding NYS, the Venison Donation Coalition, and regional food banks, nearly 40 tons of venison are made available each year to families across the state.

There are many ways a hunter can help feed those less fortunate. You can donate all or part of your deer at a cooperating processor, support your regional food bank monetarily, or you can make a cash donation to support venison donation programs when you purchase your hunting license.

Learn more about these programs by visiting [www.dec.ny.gov/outdoor/8351](http://www.dec.ny.gov/outdoor/8351)
• Muzzleloaders may not be used in WMUs 3S, 4J, 8C, and may only be used in 1C during the Special Firearms season in January.
• Bow/Muzz either-sex or antlerless-only tags may not be used during the regular seasons, except in WMUs 1C and 3S.
• Hunters participating in the muzzleloader season shall not have in their possession, or be accompanied by a person who has in their possession, a bow or firearm other than a legal muzzleloading firearm or crossbow.

Bowhunting
Bowhunting opportunities include both the bowhunting and regular seasons:
• Hunters must possess a current bowhunting or junior bowhunting privilege to participate during the bowhunting seasons.
• The bowhunting privilege is not required to hunt with a bow during regular seasons, but hunters must possess proof of eligibility (either a valid bowhunter education certificate or prior bowhunting license).
• Bow/Muzz either-sex or antlerless-only tags may not be used during the regular seasons except by junior bowhunters or in WMUs 1C and 3S.
• In WMUs 4J and 8C, only bows may be used to take deer during the regular and bowhunting seasons.
• Suffolk (WMU 1C) and Westchester (WMU 3S) counties have separate regular seasons restricted to bows for taking deer.

Crossbow Use
Crossbow opportunities include portions of bow seasons in addition to muzzleloader and regular seasons:
• Crossbows may be used to take deer during muzzleloader seasons and a portion of the early bow seasons (see maps on page 25) by hunters with a valid hunting or junior hunting (ages 12–15 only) license and a current muzzleloader privilege. Junior hunters (ages 14–15) may also take bear with crossbows during these seasons (see map on page 38).
• Crossbows may be used to take deer during the regular season by hunters with a valid hunting or junior hunting (ages 12–15) license and to take bear during the early bear and regular seasons by hunters with a valid hunting or junior hunting (ages 14–15 only) license.
• See page 23 for the required Crossbow Certificate of Qualification. The New York State Legislature does not allow all crossbows to be used to hunt big game in New York. See page 14 for the definition of a legal crossbow.

Barbed Broadheads
Barbed broadheads are illegal for hunting big game. A barbed broadhead is one in which the angle formed between the trailing or rear edge of any blade and the shaft is less than 90 degrees. A notch at the base of the blade extending no more than two millimeters from the shaft shall not be considered a barb. Broadheads with mechanical blades are legal if the blades DO NOT form a barb or hook when the arrow is pulled from the flesh of a deer or bear. (See graphic on page 20.)
Perched 15 feet off the ground, you saw that a buck you had been watching since late summer worked his way down a trail that brought him directly under your treestand. You did everything you could to maintain your composure, but in your excitement the perfect shot you took a few seconds later wasn’t so perfect after all. The deer bounded over the hill after your broadhead passed through the animal well behind the ribcage.

When you finally started tracking the deer, what started as a good blood trail, thinned to a drop here and there, before disappearing altogether. Eventually you concluded that your best hope of recovery was to call for help from Deer Search, Inc., a dedicated group of volunteers that help hunters locate what otherwise might have been a lost animal.

In 1986 the New York State Legislature authorized the Department of Environmental Conservation to license handlers to use leashed tracking dogs to assist hunters with the recovery of big game animals. Since then, Deer Search, Inc. volunteers and their dogs have helped recover thousands of harvested deer and bear across New York.

Jared Brueggeman, a member of Deer Search, Inc. from Delaware County, was exposed to the world of tracking dogs while helping his uncle track a deer when Jared was 17 or 18 years old. Watching the dog work and being a part of the recovery effort left him with a lasting impression that stayed with him through college. After graduating with a degree in wildlife science, his experience became the catalyst for his membership in the tracking organization.

Though Brueggeman’s interest had its roots in working with the dogs, he said, “I came to realize that each time a wounded or dead deer is recovered it fulfills our responsibility as conservationists and allows that animal to be used and enjoyed by the hunter and their family.”

Having volunteers ready to help with recovery does not absolve hunters of the need to carefully consider any shot they are about to take. Hunters must be proficient with the bow or gun they are about to use and must ask themselves if the animal is within range, is the field of view unobstructed, and just as important, is the deer or bear positioned correctly for a lethal shot through vital organs? You can’t let your excitement get in the way of good sense and ethical judgement.

Even if the deer does take off, a well-placed shot is going to make the dog’s job that much easier. “Sometimes we’re just the waterboy. The dog controls the track. The hunter will tell you the deer went out 50 yards, made a hard left and I lost it in thick cover. You put the dog on the track, and it takes you in an entirely different direction” said Marc Niad, another Deer Search member from Westchester County.
Crossbow Hunting Information

Crossbow Hunting Qualifications and Safety Information

A crossbow must have compound or recurve limbs with minimum width of 17 inches (outer tip of limbs excluding wheels and cams, uncocked); a minimum overall length from butt of stock to the front of the limbs of 24 inches; and be able to launch a minimum 14 inch arrow/bolt, not including the legal arrowhead. It must have a draw weight of 100 to 200 pounds.

Crossbows may be used by any person age 12 or older to hunt deer and any person age 14 or older to hunt bear, unprotected wildlife, and most small game species. Crossbows may not be used to take carp or any other fish.

Hunters who plan to hunt with a crossbow must have in their possession while afield either their completed Hunter Education Certificate of Qualification card dated on or after April 1, 2014 or the completed Crossbow Certificate of Qualification located below.

Crossbow safety information

- Before shooting your crossbow, read and thoroughly understand your crossbow owner’s manual.
- Make sure your fingers are well away (below rail) from the path of the bow string and cables.
- Never dry-fire a crossbow (cock and fire without an arrow placed on the rail).
- Make sure the crossbow limbs are free of obstructions before shooting.
- Never carry a cocked crossbow with an arrow in it while walking.
- If hunting from a tree stand, always cock (but do not load) the crossbow on the ground before climbing into the stand.
- Once seated and secured in the tree stand, pull up your unloaded crossbow with a haul line.
- Do not place an arrow on the crossbow until you are safely secured in your stand.
- Never use a cocking device to uncock a crossbow.
- To uncock a crossbow, shoot an arrow tipped with a field point into the soft ground or a target.
- Always identify your target and the area beyond it before shooting.
- To prevent wounding game, practice often and do not take shots at game that are beyond your effective range, generally less than 30–40 yards, similar to a modern compound bow.
- To better understand how an arrow functions and the skill required for hunting with an arrow, DEC recommends all crossbow hunters take a bowhunter education course.

**Northern-Southern Zone Line**
A line commencing at a point at the north shore of the Salmon River and its junction with Lake Ontario and extending easterly along the north shore of that river to the Village of Pulaski, thence southerly along Route 11 to its intersection with Route 49 in the Village of Central Square, thence easterly along Route 49 to its junction with Route 365 in the City of Rome, thence easterly along Route 365 to its junction with Route 28 in the Village of Trenton, thence easterly along Route 28 to its junction with Route 29 in the Village of Middleville, thence easterly along Route 29 to its junction with Route 4, thence northerly along Route 4 to its junction with Route 22, thence northerly and westerly along Route 22 to the eastern shore of South Bay on Lake Champlain in the Village of Whitehall, thence northerly along the eastern shore of South Bay to the New York-Vermont boundary.

**Closed Areas**
The following closed areas are specific portions of the state where the taking of deer and bear is prohibited by the Environmental Conservation Law. This section does not include areas covered by town laws, local ordinances, or posting by landowners.

**Broome County**
City of Binghamton

**Erie County**
Area around Buffalo: bounded by Tonawanda Creek from East Branch Niagara River to Rt. 78 to Greiner Rd. to Rt. 268 to Rt. 5 to Ransom Rd. to Rt. 33 to Rt. 78 to Rt. 20 to Rt. 20A to Lake Erie.

**Herkimer County**
Area along Big Moose Lake: bounded by Judson Rd. from Herkimer-Hamilton County line to Higby Rd. to Big Moose Rd. to Martin Rd. and along it to its eastern end and then to the lake shore and back (starting westerly) along the shore to Herkimer-Hamilton County line and along it to Judson Rd.

**Herkimer and Hamilton Counties**
Area bounded by Rt. 28 from Old Forge to Inlet and by South Shore Rd. from Inlet to Old Forge.

**Nassau County**
All of Nassau County.

**New York City**
All of the City.

**Antler Restriction Program**
A mandatory antler point restriction exists in WMUs 3A, 3C, 3H, 3J, 3K, 4G, 4O, 4P, 4R, 4S, and 4W in southeastern New York (see deer hunting season maps). This program will continue as DEC encourages hunters elsewhere to practice voluntary restraint. Over time, as more and more hunters in the broader region opt to pass on young bucks voluntarily, it may be appropriate to lift the restrictions.

**Antler Identification**

**Antler Point Restriction**
- At least 1 antler with 3 or more points that are at least 1” long
- Applies to all public and private land and all seasons
- Hunters aged 12–16 are exempt and may take any buck with antlers 3 or longer

**Antlerless Deer**
- Adult does, doe fawns, buck fawns (button bucks), adult bucks without antlers, or with antlers less than 3” long
- May be tagged with your DMP or Bow/Muzzleloading antlerless or either sex tags.

Report Your Moose Sightings

Moose are protected in New York and cannot be hunted. DEC and its research partners are working to understand the status of the moose population. You can help us by reporting moose sightings at www.dec.ny.gov/animals/6964.html.

Dave K. with his favorite hunting companion, Merica. Merica is 12 years old and has lived in six different states with Dave. “She’s getting a bit up in years, but she still goes nuts when she sees a shotgun.”

Photo by Steve Spudie
Deer Management Permits (DMPs)

Hunters possessing a DMP may take one antlerless deer per permit in addition to any deer that may be taken with a regular hunting license or bowhunting and muzzleloading privileges.
- DMPs may not be used for legally antlered deer (at least one antler 3” or longer).
- DMPs may be used in any open season only in the WMU they are issued for.
- Hunters may transfer or receive up to 2 DMPs from other hunters (see page 29).

Applying for a DMP
- **DMP Application Deadline:** Close of business on October 1, 2023
- You may apply for DMPs at all license-issuing outlets, by phone, or online beginning on August 1, 2023.
- DMPs are available to all hunters age 14 years or older who purchase or possess a regular hunting license (12 years old for Junior Bowhunting license holders).
- There is a $10 nonrefundable application fee for all applicants. The fee is waived for holders of Lifetime Licenses purchased prior to 10/1/2009, and Junior Hunters and Junior Bowhunters.
- **Know your Wildlife Management Unit (WMU) before you apply.** If you are unsure of your unit, see the WMU maps on pages 70–77 of this guide or visit [www.dec.ny.gov/outdoor/8302.html](http://www.dec.ny.gov/outdoor/8302.html) for written boundary descriptions. You may also call the DMP Hotline for additional information at 1-866-472-4332.
- You may apply for up to two DMPs. Both must be applied for at the same time. Application can be for DMPs in the same WMU or different WMUs.
- **Disabled veterans** with a service-connected disability rated at 40% or greater (who are residents of New York) will receive preference on DMPs. Annually, you must bring a letter from the Department of Veterans Affairs, dated in the current year, with your case number and your disability percentage. If you are claiming permanent disabled status, the letter must clearly state that the 40% or more service-related disability is permanent.
- **Landowners:** It is illegal for more than one person per 50-plus-acre tax map ID to apply as a landowner. If you own 50 or more contiguous acres of land within the WMU you will be hunting in, you will receive preference on DMP selection. Annually, you must bring your tax map identification number and SWIS code (found on your tax bill) with you when you apply. Be sure to tell the license-issuing agent prior to applying that you are a landowner. Lessees do not qualify as landowners.
- **Corporate ownership:** It is illegal for more than one person to apply as a corporate landowner no matter how many 50-acre parcels are owned. The corporation must submit an original letter or certified copy of a resolution, dated in the current year, designating one individual and must include the tax map ID and SWIS code information.
- **Group ownership:** It is illegal for more than one person per 50-plus-acre tax map ID to apply as a landowner, regardless of how many co-owners. Additional 50-plus-acre parcels in the same WMU require separate tax IDs.
- **Preference points:** Preference points increase your chances of selection, but do not guarantee DMP selection.
- Preference points are won and lost on first permit selection only.
- If you receive a DMP in your first choice WMU, all available preference points will be used.
- If you do not receive a DMP in your first choice WMU, you will receive a preference point for the following year.
- If you do not receive your first choice, the points are applied to your second choice, but will remain in your file for the following year, regardless of your second-choice selection results.
- **Preference Points are not WMU specific.** That is, if you earned a preference point by being denied in one WMU, you can use that preference point in a subsequent year when applying for a DMP in a different WMU.

Deer Hunting

Chances of DMP Selection
Your chances of selection for first and second DMPs by Wildlife Management Unit are available online at [http://www.dec.ny.gov/outdoor/30409.html](http://www.dec.ny.gov/outdoor/30409.html), posted at all License Issuing Outlets or by calling our Deer Management Permit hotline at 1 866 472 4332. Chances of DMP selection remain the same throughout the entire DMP application period.

Hunter Education: Next Step Courses
The DEC’s Hunter Education Program (HEP) is now offering Next Step courses for people who have already completed a hunter education, bowhunter education, or trapper education certification course and want more education and hands on experience.
- Taught by HEP staff and certified HEP instructors.
- 4 Hour courses focus on safety, techniques and hands on experience in:
  - rifle, shotgun, crossbow, archery, fur handling, land trapping, and water trapping.

All Next Step Courses are FREE
- Registration with your certificate number is required.
- Minimum age is 12 years old.
- No certification is offered in these courses.

For more information and to register, visit [www.dec.ny.gov/outdoor/92267.html](http://www.dec.ny.gov/outdoor/92267.html) or scan the QR code.

28  2023–2024 New York Hunting & Trapping Guide
**DMP selection order**
During the instant issuance, an applicant’s chances of selection are determined by an applicant’s category. The categories, in priority order, are as follows:
1. Landowners (50 or more acres of land within a WMU) and Disabled Veterans (40% or more service-related disability). All applicants in this category will receive their first-choice DMP.
2. NYS Residents and Non-residents with 3 Preference Points
3. NYS Residents with 1–2 Preference Points
4. NYS Residents without Preference Points
5. Non-residents with 1–2 Preference Points
6. Non-residents without Preference Points

**Additional DMP opportunities**
**Bonus DMPs:** If you fill a DMP in bowhunting-only WMUs 1C, 3S, 4J and 8C, you can apply for a bonus permit for another antlerless deer. Bonus permits may only be obtained from regional wildlife staff at predetermined locations. For complete information, visit our website or call a DEC Regional Wildlife Office as follows:

- WMU 1C: 1-631-444-0310
- WMU 3S: 1-845-256-3098
- WMU 4J: 1-518-357-2154
- WMU 8C: 1-585-226-5380

**Leftover DMPs:** If there are still permits remaining after the initial DMP instant-issuance period closes on October 1 and the back-end correction selections have occurred, the remaining DMPs may be available on a first-come-first-served basis, beginning on or around November 1. These DMPs are only available in person at license-issuing agents. Leftover DMPs will not be available by phone or online. The Wildlife Management Units with permits available will be announced by news release and on our website (www.dec.ny.gov). If you already applied for a DMP during the initial application period, there is no additional application fee. If you are applying for the first time this hunting season, you will have to pay a $10 application fee. Fee is waived for Resident and Non-resident Junior Hunters and Junior Bowhunters, and for Lifetime License holders who purchased prior to October 1, 2009. You will be allowed up to two DMPs during the first-come-first-served application period in addition to any you may have received during the initial application period.

**Deer Management Assistance Program**
The Deer Management Assistance Program (DMAP) enables wildlife biologists to help landowners and resource managers implement site-specific deer management on their lands. In doing so, DEC issues a special permit for use only during the open deer hunting seasons and a determined number of antlerless deer tags to landowners or resource managers whose property is in need of site-specific deer management efforts. Hunters are expected to report their harvest. For more information on the program, refer to www.dec.ny.gov/animals/9395.html.

**How to Transfer a DMP Deer Carcass Tag**
Hunters are allowed to receive only two transferred DMPs per year. DMPs can be transferred from the receiving hunter back to the original hunter or to another. The other hunter must record the DOC# on his/her reporting panel, as in Step 3 above, to complete the transfer.

1. Hunters are allowed to receive only two transferred DMPs per year.
2. DMPs can be transferred from the receiving hunter back to the original hunter or to another.

**Leftover DMPs:**
If you fill a DMP in bowhunting-only WMUs 1C, 3S, 4J and 8C, you can apply for a bonus permit for another antlerless deer. Bonus permits may only be obtained from regional wildlife staff at predetermined locations. For complete information, visit our website or call a DEC Regional Wildlife Office as follows:

- WMU 1C: 1-631-444-0310
- WMU 3S: 1-845-256-3098
- WMU 4J: 1-518-357-2154
- WMU 8C: 1-585-226-5380

**Leftover DMPs:**
If there are still permits remaining after the initial DMP instant-issuance period closes on October 1 and the back-end correction selections have occurred, the remaining DMPs may be available on a first-come-first-served basis, beginning on or around November 1. These DMPs are available to the public online or by phone.

**Put Down Some Roots!**
With Trees and Shrubs from DEC’s Nursery

Dozens of varieties of NY-grown seedlings are available for affordable prices during our annual sale, open January through mid-May.

Colonel William F. Fox Memorial Saratoga Tree Nursery
(518) 581-1439
www.dec.ny.gov/animals/9395.html
Deer Hunting

DMAP on State Lands
DEC has enrolled several state lands in DMAP. Tag availability is limited and hunters must apply to participate. See www.dec.ny.gov/outdoor/121387.html for information. Properties include:
- Bully Hill State Forest, WMU 9P
- Doodletown Wildlife Management Area, WMU 4Z

Eurasian Boar
Eurasian boars are a destructive invasive species that damage habitat and crops, and threaten native wildlife and domestic livestock. DEC and USDA have worked hard to eradicate these animals from the state's landscape. We are now working to prevent their reintroduction into New York.
- It is illegal to possess, sell, distribute, trade, or transport Eurasian boars or their hybrids.
- It is illegal to import, breed, or release Eurasian boars or their hybrids.
- It is illegal to hunt, trap, or take free-ranging Eurasian boar or their hybrids.
Although DEC's eradication efforts have been very successful to date, we must remain vigilant. Anyone who sees a Eurasian boar should report it to DEC as soon as possible by emailing wildlife@dec.ny.gov or calling 518 402 8883.

Become a Hunter Education Program Instructor

“I volunteer my time to the Hunter Education Program because I get more out of it than I give. Those few hours give me a greater appreciation for all things conservation. The smiles of a child that can now go afield with purpose, men and women who will get to put fresh game on their tables, and a new group of people with a greater understanding of the wildlife and nature around them.”
Ann Wilcox-Swanson, Instructor

Qualifications
- At least 18 years of age
- Hunting experience preferred
- Good communication skills
- Good moral character

APPLY TODAY! 1-888-HUNTED2 https://www.dec.ny.gov/outdoor/7860.html
Lead rifle bullets and shotgun slugs are relatively soft and heavy, but can fragment into hundreds of small pieces upon impact. Gut piles from field-dressed deer can be contaminated with these small lead fragments, making them available to Bald and Golden Eagles and other scavenging wildlife that readily consume these gut piles. In recent years, ingestion of lead fragments has resulted in the impairment and death of Bald and Golden Eagles in New York.

While Bald Eagle abundance has been increasing in New York, the population growth is reduced due to lead poisoning. Golden Eagles commonly stop in New York during migration and feed upon gut piles and dead deer. Unlike Bald Eagles, the eastern population of Golden Eagles is not increasing. Therefore, lead poisoning from consuming contaminated gut piles makes the Golden Eagle more susceptible to potential population declines.

**Non-lead Ammunition Rebate Program for Deer Hunters**
DEC has partnered with the New York Cooperative Fish and Wildlife Research Unit at Cornell University, United States Geological Survey, and Conservation Science Global to implement a multiyear study to determine the reduction in eagle deaths resulting from use of non-lead ammunition for deer hunting. Researchers are offering a rebate of up to $60 for purchase of certified non-lead ammunition and for participation in pre- and post-hunt surveys. Certified non-lead ammunition has <1% lead content and a list of manufacturers and non-lead bullet calibers can be found at huntersforeagleconservation.org/new-york/.

**To Learn More and Sign-up!**
This is a voluntary program limited to wildlife management units (WMU: 3H, 4F, 4G, 4H, 4O, 4P, 4R, 4W, and 6G). Only hunters who possess a 2023–24 DMP for a WMU in the project area are eligible, and they must participate in an associated pre- and post-hunting season surveys. To learn more and sign-up, go to huntersforeagleconservation.org/new-york/. For more information on DEC efforts to minimize risks from lead ammunition please visit www.dec.ny.gov/outdoor/48420.html.

**Questions?** wildlife@dec.ny.gov (subject: non-lead ammo study).
Deer Hunting

Doe or Fawn?
During the fall, it can often be difficult to distinguish adult does and fawn deer, particularly if seen alone. In recent years, about 20% of the total antlerless deer harvest has been fawns (5-7 months old), with nearly even proportions of doe fawns and buck fawns. Though fawns provide excellent table fare, some hunters prefer to target adult deer. Taking female deer contributes to management objectives, and passing buck fawns may allow some of them to be available later as antlered bucks. By learning the differences between antlerless deer, hunters can make more informed harvest choices.

Hunting Tips

- Button bucks often travel alone, but adult does rarely do. Wait until several antlerless deer are present before making a harvest decision.
- It is easier to identify sex and age when animals are standing still or moving slowly.
- Harvest antlerless deer early in the season when differences between fawns and adult does are most noticeable.

Tree Stand Safety — Hunt Safe, Hunt Smart

- Read the manufacturer’s instructions. Replace worn/missing parts.
- Use a full body harness with a foot strap to relieve harness leg pressure.
- Use a “lifeline” or safety rope that is secured at base of the tree or stand and to the tree just above your head when sitting in the stand. Stay connected to a lifeline from the time you leave the ground to the time you get back down.
- Attach the tether from your full body harness to the lifeline using a carabiner and prusik knot, which easily slides up and down the lifeline.
- Once secured in your stand, use a haul line to raise/lower unloaded implements and quiver. Do not tie the haul line around the trigger or trigger guard. Haul unloaded guns, bows, and cocked (but unloaded) crossbows pointed down.
- Carry emergency equipment (knife, phone, flashlight, whistle) in your pockets at all times, not in your pack.
- Tell someone where you will be hunting and when you will return.

In addition to the Tree Stand Safety steps above, it is important to know the health and species of the tree you choose to support your stand. In New York State there are a handful of tree species that are currently being impacted by non-native pests and pathogens that should be avoided. The most common trees that are either dead or are in the process of dying are: Ash species (Fraxinus spp.), Butternut (Juglans cinerea), American beech (Fagus grandifolia), Eastern hemlock (Tsuga canadensis), and American elm (Ulmus americana).
HUNTERS: Want Older Bucks in New York?

It’s Your Choice

You can increase the availability of older bucks by choosing to pass up shots at young bucks.

- Older bucks create more rubs and scrapes, vocalize more, and yield more meat – all things that create unforgettable hunting experiences.

You can boost deer condition and body and antler size by balancing the deer population with the habitat:

- Take a doe if permits are available in your area.
- Create young forest to enhance natural forage and cover for deer.

Introducing a new generation to the outdoors — Take a youth hunter afield this fall

Once again, DEC is providing a special youth deer season over the three-day Columbus Day weekend. Junior hunters (ages 12–15) are eligible to take one antlered or one antlerless deer with a firearm and 14- and 15-year-old junior hunters may also take a bear with a firearm during this season. Rules of the Junior Hunter Mentoring Program (page 37) also apply.

DEC also offers special opportunities for junior hunters (ages 12–15) for waterfowl, wild turkey, and pheasants.

For all youth hunts, junior hunters must be accompanied by an adult hunter. Both the junior and adult hunters are required to have a hunting license for the youth deer season, a hunting license and a turkey permit for the turkey hunt, and a hunting license and current HIP registration for the waterfowl hunt. During the youth waterfowl hunt, the supervising adult must also have a federal duck stamp. During the youth pheasant, turkey, and big game hunts, adult hunters are not allowed to possess a firearm, crossbow, or bow, or to harvest an animal while accompanying a junior hunter. During the youth waterfowl hunt the adult hunter supervising the junior hunter may not carry a firearm, longbow, or crossbow afield, but the prohibition does not apply to other hunters in the party that are not mentoring the junior waterfowl hunter.

Crossbows may be used by 12- and 13-year-old hunters only to take deer. Hunters ages 14 and 15 may use a crossbow to take deer, bear, and other game for which crossbows may be used.

Note: Junior hunters (ages 12–15) must be accompanied by a licensed adult hunter whenever they are afield in pursuit of game, not just during designated special youth seasons.

New York is on Target!

The National Archery in the Schools Program:

- Is an archery program for grades 4-12
- Is taught during school in the curriculum
- Includes instructor training
- Uses standardized equipment
- Has 40,000 students participate annually

For more information, please contact NY NASP at 518-402-8967, or hunter@dec.ny.gov

The NYSDEC has partnered with the Archery Trade Association to bring you a next step archery program with curriculum that includes over 20 introductory lessons to bowhunting for youth ages 11-17.

Contact the NY Explore Bowhunting coordinator for local instructor training opportunities. P: 518-402-8967 E: hunter@dec.ny.gov
Junior Hunter/Trapper Opportunities

Junior Big Game Hunting

NEW OPPORTUNITY: 12- and 13-year-old can hunt deer with a gun or crossbow in counties that opt in

A new law adopted in 2021 reduced the age for hunting deer with firearms and crossbows:

• Counties must pass a local law allowing the activity. See DEC website (www.dec.ny.gov/outdoor/46245.html) for a list of counties that have opted in.
• 12- and 13-year-olds can hunt deer with a rifle, shotgun, or muzzleloader during the youth deer hunt or regular season, and hunt deer with a muzzleloader during the early or late muzzleloading season.
• 12- and 13-year-olds can hunt deer with a crossbow during the crossbow portion of the early bow season, the regular season, and late muzzleloading season.
• The new law does not authorize bear hunting.

12- and 13-year-old hunters must meet the same requirements as 14- and 15-year-olds hunting deer with a firearm.

12- and 13-year-old junior bowhunters can hunt deer and bear with a bow if they meet the following requirements:

• They have completed a course in Bowhunter Education.
• They have purchased a Junior Bowhunting License.
• They are accompanied by a parent, legal guardian, or a youth mentor who is 21 years or older designated in writing (use the form below).
• The accompanying adult needs to have at least 3 years of hunting experience and have a license to hunt big game in the same seasons.
• Both junior hunter and accompanying adult must wear fluorescent orange or pink: a shirt or jacket with 250 sq inches of solid/patterned fluorescent orange or pink (the pattern must be no less than 50% fluorescent orange or pink) or a hat with no less than 50% of the exterior consisting of solid fluorescent orange or pink and visible from all directions.

14- and 15-year-old junior bowhunters and first-time 16- and 17-year-old big game hunters must:

• Be accompanied by a parent, legal guardian, or person 18 years or older designated in writing (use form below).
• The accompanying adult needs to have at least 1 year of hunting experience and have a license to hunt big game in the same seasons.

Junior Trapping

Trappers under 12 years of age:

• May accompany and assist a licensed trapper in all aspects of trapping without possessing a trapping license themselves.
• The licensed trapper must have at least 3 years of trapping experience and may be a parent, legal guardian, or someone 18 years or older designated in writing (use the form below).

Junior Trappers 12 years or older:

• Must complete NY’s Trapper Education Program whether they will be trapping alone or with an adult licensed trapper.

Share Your Hunting and Trapping Photos With Us!

Help us celebrate the successes of young and first time hunters and trappers by submitting photographs to DEC’s Hunting and Trapping Photo Gallery: www.dec.ny.gov/outdoor/54055.html

Mentored Youth Hunter and Trapper Permission Form

Use this form to designate a licensed adult hunter or trapper to accompany young hunters or trappers.

I, ____________________________ am the parent/legal guardian

(Print name of parent or legal guardian above.)

(Please circle one.)

of ____________________________, and I hereby give permission for him or her

(Print name of young hunter/trapper above.)

to be accompanied by ____________________________ whom I acknowledge meets

(Print name of adult hunter/trapper above.)

the legal age, experience, and licensing requirements to function as a mentor during hunting and trapping seasons.

Signature: ____________________________

(Parent or legal guardian sign above.)

Date ____________________ Telephone Number ____________________

(Print today’s date above) (Print phone number above.)

Attention Young Hunter or Trapper: carry this form with you while afield.
Bear Hunting

- Resident and non-resident hunters can receive a bear carcass tag with their hunting license and may take one bear per year.
- In the Southern Zone, hunters may not shoot a cub or a bear that should be known to be a cub, shoot any bear from a group of bears, or shoot or take a bear from its den.
- Hunters may use and carry up to 1.5 fluid ounces of a liquid scent or lure, though such scent or lure may not be placed in a manner that it may be consumed as bait.
- Hunting bear with the aid of bait or dogs is prohibited.

---

New York State Bear Management Cooperator Program

The Bureau of Wildlife is requesting the assistance of successful black bear hunters in New York State. Hunters who harvest a bear in New York are required to report their harvest through the DECALS telephone system at 1 866 426 3778 (1 866 GAMERPT), via the mobile app, or use the new online Harvest Reporting System at www.dec.ny.gov. Successful bear hunters are also asked to submit a premolar tooth and a tooth collection packet with premolar removal and submission instructions. Hunters may be contacted by a DEC wildlife biologist to examine your bear and extract a premolar tooth for aging.

Report your bear and return a bear tooth to receive a commemorative 2023 NYS Black Bear Cooperator Patch. Samples will be aged in the summer of 2024. Cooperating hunters will receive patches and letters indicating the age of their bear in early fall 2024.

---

Become BearWise

In 2022, DEC became a cooperating partner of BearWise®, a multi state campaign focused on educating people on how to live responsibly with black bears. The campaign provides sound information and smart solutions that help homeowners, businesses and communities coexist with black bears. Visit https://bearwise.org/ to learn the BearWise basics, bear safety tips, and to download educational resources. Become NYS BearWise to help keep New York State's black bears healthy and safe.

---

Attention Bear Hunters and Taxidermists

Bear gallbladders and bile shall not be possessed or sold unless a valid bear tag (original or copy of bear carcass tag) is attached. New York State law requires taxidermists to keep records of all bear gallbladders and bile received or sold.
