ARTICLE I
SHORT TITLE & STATEMENT OF PURPOSE

Section 826-a.100. Short Title.

1. This Chapter shall be known as the “Westchester County Solid Waste and Recyclables Collection Licensing Law.”

Section 826-a.101. Purpose.

The purpose of this Chapter is two-fold.

1. a. The first purpose is to implement existing state Solid Waste management policy, as declared in Title One of Article 27 of the New York State Environmental Conservation Law, pursuant to which the County was designated as the official planning unit, and to develop and implement an integrated, comprehensive and long-term plan to manage all Solid Waste and Recyclables generated and collected within the County’s borders. The requirements outlined in this Chapter are necessary to: (1) enable Westchester County to promote the general health, welfare and safety of the people of Westchester County; (2) ensure that Solid Waste generated within the County is disposed of or recycled in an environmentally safe and sound manner; (3) implement and then evaluate the effectiveness of the County’s State-approved Solid Waste management plan; and (4) to develop any necessary future Solid Waste management options by providing comprehensive and detailed information about non-municipal Solid Waste management and recycling.
- b. The second purpose of this Chapter is to address the influence and the threat of the influence of organized crime in the Solid Waste and recycling industries operating in Westchester County. The Westchester County Board of Legislators has found that organized crime permeates the Solid Waste hauling industry in Westchester County and constitutes a significant problem and matter of public concern within the County. The existence of cartels has produced anti-competitive effects in the industry including, but not limited to, price-fixing; the prevention of new entry into the industry; the existence of unconscionable customer contract terms; and the incidence of corruption. To address this problem and matter of public concern, the Westchester County Board of Legislators has, through this Local Law, sought to, inter alia, expand the license application process; to modify the standard by which licenses for Solid Waste and recycling collection businesses are issued by the County in order to ensure the good character, honesty and integrity of licensees; to institute a registration process for those Solid Waste brokers which may operate in the County; to encourage new entry into the industry; to encourage competition; to regulate and monitor customer contracts for solid waste and recyclables collection; and to expand the penalties for violation of the standards established herein. It is the

intent of the Westchester County Board of Legislators to eliminate the influence of organized crime in the Solid Waste and Recyclables collection industry; and, thereby, eliminate this significant problem and matter of public concern, as referenced above, from Westchester County.

Section 826-a.301. License and Registration - Requirement.

1. Notwithstanding any provisions to the contrary and subject to the Implementation procedure outlined in Article VIII, it shall be unlawful for any person to conduct Class A, Class B, Class C, Class D, Class E or Class L activities in Westchester County without having first obtained a license therefor from the Commission pursuant to the provisions of this Chapter.

2. Notwithstanding any provisions to the contrary, commencing September 30, 2000, it shall be unlawful for any person to operate as a Solid Waste Broker unless registered therefor by the Commission pursuant to the provisions of this Chapter.

3. Any license or registration shall be in the nature of a privilege subject to the terms and conditions set forth in this Chapter, and shall not be deemed to create a property interest or right with respect to the persons who conduct Class A, Class B, Class C, Class D, Class E or Class L activities, or who operate as Solid Waste Brokers, in Westchester County. Such licenses and/or registrations are not transferable upon sale or transfer of ownership of a licensed or registered business, except with the prior written approval of the Commission, after submission of a completed license application or registration application by the purchaser or transferee, pursuant to the provisions of this Chapter. The granting of a license or registration shall not operate as an authorization for regionally or wholly-owned subsidiaries of such Licensee and/or Registrant to conduct licensed or registered activities. All such subsidiaries shall be required, in all cases, to apply separately for licensing and/or registration pursuant to the provisions of this Chapter.

4. The Commission shall refuse to issue or renew a license or registration in the event that such issuance or renewal conflicts with or is prohibited by any other applicable provision of Federal or State law. Such denial or non-renewal shall not be subject to the notice and hearing procedures of Section 826-a.602 of this Chapter.

5. a. Notwithstanding any provision of this Chapter to the contrary, any Applicant which holds a valid license or registration issued by the Trade Waste Commission of the City of New York to conduct activities similar to those activities for which the Applicant seeks to obtain or renew a license or registration pursuant to this Chapter, shall be initially relieved from the disclosure obligations to the extent that such disclosure has already been made to the New York City Trade Waste Commission pursuant to such licensing or registration determination, but not the general application requirements, outlined in this Article, and the Commission may determine that the Applicant has met the standards of good character, honesty and integrity necessary to be licensed or registered pursuant to this Chapter based upon the issuance of the license or registration in New York City. This provision shall not apply to an Applicant which is a regional or wholly-owned subsidiary of an entity licensed or registered by the Trade Waste Commission of the City of New York, and such subsidiaries shall, in all cases, be subject to all disclosure requirements as set forth in this Article.

b. In the event that a license or registration to haul solid waste and/or recyclables issued by a licensing authority of any federal, state or local jurisdiction is ever suspended or revoked, or if an application for a license or for the renewal of a license to haul solid waste and/or recyclables is ever denied by a licensing authority of any such jurisdiction, the licensee or registrant shall inform the commission of same within 10 days of receiving notice of such action, and the commission may, at its discretion, immediately take any action available to it pursuant to this chapter.

c. Nothing provided in this subsection shall be intended to relieve any Licensee or Registrant from its ongoing obligation to disclose information as required by this Chapter or as may be required by the Commission, in its discretion, subsequent to the issuance of a license or registration. Such Licensee or Registrant shall also be required to provide the Commission with any and all information necessary to enable the County to comply with its reporting requirements pursuant to Article 27 of the Environmental Conservation Law, as specified by the Commission.

A Licensee or Registrant must comply fully with all application requirements outlined in Article III., hereof, in order to renew such license or registration. Review of each such application for renewal by the Commission shall be based upon a consideration of the standards for issuance of a license or registration as set forth in Section 826-a.400. An expired license or registration shall be deemed to have been extended, if a complete application to renew the license or registration has been timely submitted and has not been acted upon by the Commission, or if a hearing on a determination not to renew the license or registration is pending, until the Commission either grants renewal or denies renewal at the completion of the hearing process set forth in Article VI. of this Chapter.
