RE: Minor Permit Modification—Removal of LGF Solids Grinders from off-loading pads
Norlite LLC, NYSDEC Permit No. 4-0103-00016/16
EPA ID No. NYD080469935

Dear Mr. Knight:

The New York State Department of Environmental Conservation (Department) has completed the review of the Minor Permit Modification request received on March 24, 2017 to allow Norlite to remove the Low Grade Fuel Solids Grinder Units (Z-101A, Z-103A and Z-103C).

The Department approves the request to remove these units from service and dispose of them as hazardous waste solids. The Department also approves the Minor Permit Modification request to replace Drawing No. NY003-1311 with an updated drawing which reflects the removal of these grinder units. This permit modification is a minor modification pursuant to 6 NYCRR 373- 1.7(c)(15).

If you have any questions regarding this modification please contact myself or Mike Rich at 518 402-9813.

Sincerely,

Thomas J. Killeen, P.E.
Chief, RCRA Permitting Section
