Hi Prince,

As discussed, this water treatment chemical, TMT 15, is conditionally authorized. The authorization will expire on November 1, 2017. Following the Pilot Study, please resubmit a WTC Notification Request with a SDS that includes aquatic toxicity information. Also, if Norlite determines a lower dose is sufficient to achieve the desired results, you may wish to reduce the maximum and average proposed doses.

Thank you,  
Carrie

Good Afternoon Kate,

Please find attached a request for a pilot study to be conducted at the Norlite, LLC. Waste Water Treatment System. This is in preparation for the new, anticipated SPDES permit release.

Please review and let me know if there are any questions or comments.

Sincerely,  
Prince
