Did you operate in 2017? E Yes; Complete this form.

No; Complete and submit Sections 1 and 21. If you no longer plan to operate and wish to relinquish your permit/registration associated with this solid waste management activity, also complete the "Inactive Solid Waste Management Facility or Activity Notification Form" located at: http://www.dec.ny.gov/chemical/52706.html .

SECTION 2 - SITE LIFE

1.	Lan	dfill Capacity Utilized Last Year (reporting year).	
	a.	What is the estimated landfill capacity that was utilized during the rep	porting year?
		37,981.3	_ Cubic Yards of Airspace
			Please do not report units as pounds per cubic vard.
	b.	What is the estimated in-situ waste density for the reporting year?	
		1,45	_ Tons/Cubic Yard
2	Ren	naining Constructed Capacity	
	a.	What is the remaining capacity of the landfill that is already construct	ed?
		516,208.4	_ Cubic Yards of Airspace
	b.	What is the estimated remaining life of the constructed capacity? <u>10</u> Years <u>3</u> Months at <u>60,000</u> Tons/Year.	
		Please note that this tonnage rate must include all materials placed alternative daily covers, etc.	in the landfill, i.e., waste, soil, cover,
	π.	The tonnage rate reported under 2.b. is based on (select one): The amount of materials placed in the landfill in the report	rling year
		Estimated future disposal X Permit limit	
		Other (explain):	
з.	Perr	nitted Capacity Still to be Constructed	
	а.	What is the remaining but not yet constructed landfill capacity that is a	authorized by a Part 360 permit?
		0 Cubic Yards of Airspace	
	b.	What is the projected life of capacity reported in 3a.?	
		N/A Years Months	
		atTons/Year.	
		Please note that this tonnage rale must include all materials dispose	d in the landfill, i.e., waste, and soil
		and alternative daily covers.	
	c .	The lonnage rate reported under 3.b. is based on (select one):	
		The amount of materials placed in the landfill in the report	ting year
		Estimated future disposal	
		Permit limit	
		Other (explain):	

4. Capacity Proposed in a Part 360 Permit Application

What is the capacity of any expansion proposed in a Part 360 permit application that has been submitted to the Department but not authorized by a permit as of the end of the reporting period?

0 Cubic Yards of Airspace

5. Estimated Potential Future Capacity Not Permitted or in an Application (optional)

What is the estimated capacity of any potential future expansion at the facility that is not yet authorized by a permit or proposed in a Part 360 permit application that has been submitted to the Department?

N/A

Cubic Yards of Airspace

SECTION 3 - PRIMARY LEACHATE

Name of off-site leachate treatment facility(s) utilized: SCDPW Bergen Point/ClearFlo

Does the landfill have a constructed liner and a leachate collection system? X Yes No

Enter the quantity of primary leachate that was collected, removed for on-site and off-site treatment, and recirculated each month, and the corresponding Acreage, by Cell: (Note: For double-lined landfills this should not include the volume of leachate collected from secondary leachate collection and removal systems.

For each cell, please report the acreage and the primary leachate amount.

F

Submit (attached to this form) a copy of the maintenance logs which document compliance with the Operation and Maintenance Manual's schedule for the routine annual flushing and inspection of the primary leachate collection and removal system. List required submissions that have been attached to this form or the reason for not attaching a required piece of information:

See Maintenance Logs attached.

Submit (attached to this form) a tabulated compliation of the semi-annual primary leachate quality data collected throughout the year including a summary comparing this year's data with the previous year's data and a summary discussion of results. This list should identify sample location(s) and method of analysis. List required submissions that have been attached to this form or the reason for not attaching a required piece of information: N/A

SECTION 4 - SECONDARY LEACHATE

Does landfill have a double liner system with a secondary leachate collection and removal system? <u>X</u>Yes

Submit (attached to this form) a tabulated compilation of the semi-annual secondary leachate quality data collected throughout the year including a summary comparing this year's data with all previous years' data and a summary discussion of results. This list should identify sample location(s) and methods of analysis. List required submissions that have been attached to this form or the reason for not attaching a required piece of information: N/A

Please report total cost for the year, not cost/gal.

Leachate Cost: (including transportation if appropriate) during the calendar year for leachate treatment:

\$_____TBD

Total quantity treated: 6.807.209 gal

Enter the quantity of secondary leachate that was collected, removed for on-site and off-site treatment, and recirculated each month, and the corresponding Acreage, by Cell:

For each cell, please report the acreage and the secondary leachate amount.

SECTION 5 - BENEFICIAL USE DETERMINATION MATERIALS

For each type of waste material that the Department has approved for use as alternative dally cover, intermediate cover, or other landfill material, provide the annual weight in tons, use (i.e., daily cover, intermediate cover, etc.), and source of material. (If material is from a solid waste facility also provide facility name, address, NYS Planning Unit, County/ Province, and State/Country.) Refer to the list of NYS Planning Units that can be found at the end of this report.

Type of Solid Waste	Weight (tons/year)	Use	NYS Planning Unit (See Attached List of NYS Planning Units)	County ar Province	State or Country	Source (Facility and Address)
Aggregate/Concrete						
Dredge Spoils						
Glass						
MSW/Wood Ash						
Processed C&D						
Tire Chips						
Wood/Wood Chips						
Other (specify)						
Total ADC						
Total Beneficial Use Determination Materials						

Percent Alternative Daily Cover (ADC) Calculation

ADC Calculations: Total Tons ADC/Total Tons Waste Disposed x 100 = ____

Please note the calculation is: Tons ADC (from table above)/Tons Solid Waste (from table in Section 6) x 100 and Not: Tons ADC / (Tons Solid Waste + ADC) x 100

SECTION 6 - SOLID WASTE DISPOSED

connages of solid waste disposed. Exclude Beneficial Use Determination Material amounts reported in Section 5. nethods used to measure the quantities disposed and the percentages measured by each method:

ale Weight ck Count

__% Estimated __% Other (Specify: _

ok Count			% Other	r (Specify:				٦

217)

SECTION 7 - SERVICE AREA OF SOLID WASTE RECEIVED

Identify the service area of the material. The Total Tons Received reported below should equal the Total Tons Received in Section 6 (SOLID WASTE DISPOSED), DO NOT REPORT IN CUBIC YARDS!

1) Direct hauled from the generator of the material. In the case where the material is hauled to your facility from the generator (i.e. hauled from residences, job sites, commercial establishments, etc.), "Direct Haul" is the appropriate response in Column 2 under "Service Area." Please report the tonnage by material type and identify the state, county and planning unit where it was generated; or

2) Sent to your facility from another solid waste management facility. Material may be sent to your facility from another solid waste management facility. In this case, please report the tonnage by material type from each sending solid waste management facility, as well as the sending facility's name, address, county, and the planning unit where the sending facility is located.

Specify transport method and percentages of total waste transported by each:

100 % Road

% Rail

% Water

% Other (specify:

Explain which waste types and service areas below are included in these transport methods.

TYPE OF SOLID WASTE	SOLID WASTE MANAGEMENT FACILITY FROM WHICH IT WAS RECEIVED (Name & Address) OR "Direct Hau!"	SERVICE AREA STATE OR COUNTRY	SERVICE AREA COUNTY OR PROVINCE	SERVICE AREA NYS PLANNING UNIT (See Attached List of NYS Planning Units)	TONS RECEIVED

2/17)

SECTION 9 - WASTE IN PLACE

Summary by Waste Type and Year

Include all active and inactive sections of the landfill. Report waste disposed annually by type, if known, in tons per year. Report total waste disposed, if breakdown of types is not available. In the case where more than one landfill section operated in a given year identify each separately, if known. If the annual amount is not available, report the quantities for a range of years. If you include amounts from old, closed landfills then clearly identify them on the table and explain below. In each row, report quantities disposed each year (or group of years if individual years unknown) for each waste type. Report cumulative WIP at bottom (sum of annual quantities disposed). Add additional sheets as necessary.

Year	MSW (tons)	Asbestos Waste (tons)	Ash (tons)	C&D Debris (tons)	Industrial Waste (tons)	Petroleum Contaminated Soil (tons)	Sewage Treatment Plant Sludge (tons)	Other* (tons)	Year(s) Total (tons)	Identify Landfill Section(s) Used

Reprinted (12/17)

SECTION 11 - COST ESTIMATES AND FINANCIAL ASSURANCE DOCUMENTS

Are there required cost estimates and financial assurance documents for closure and post-closure care?

□Yes	1
------	---

No

If yes, attach additional sheets reflecting annual adjustments for inflation and any changes to the Closure Plan?

SECTION 12 - PROBLEMS

Were any problems encountered during the reporting period (e.g., specific occurrences which have led to changes in facility procedures)?

Ves No

If yes, allach additional sheets identifying each problem and the methods for resolution of the problem.

SECTION 13 - CHANGES

Were there any changes from approved reports, plans, specifications, and permit conditions?

🗆 Yes 🔳 Na

If yes, attach additional sheets identifying changes with a justification for each change.

SECTION 14 - ANALYTICAL RESULTS

Submit (attached to this form) tables showing the sample collection date, the analytical results [including all peaks even if below the Method Detection Limits (MDL)], designation of upgradient wells and location number for each environmental monitoring point sampled, applicable water quality standards, and groundwater protection standards if established, MDL's, and Chemical Abstracts Service (CAS) numbers on all parameters. List submissions (required by this section) that have been attached to this form or the reasons for not attaching a required piece of information:

Ses, "Groundwaler Monitoring Program Results - June 2017", dated November 28, 2017.

SECTION 15 - COMPARING DATA

Sucmit (attached to this form) tables or graphical representations comparing current water quality with existing water quality and with upgradient water quality. These comparisons may include Piper diagrams, Stiff diagrams, tables, or other analyses. List submissions (required by this section) that have been attached to this form or the reasons for not attaching a required piece of information: Ses, "Groundwater Monitoring Program Results – June 2017", dated November 28, 2017.

SECTION 16 - DISCUSSION OF RESULTS

Submit (attached to this form) a summary of any contraventions of State water quality standards, significant increases in concentrations above existing water quality, any exceedances of groundwater protection standards, and discussion of results, and any proposed modifications to the sampling and analysis schedule necessary to meet the Existing, Operational and Contingency water quality monitoring requirements. List submissions (required by this section) that have been attached to this form or the reasons for not attaching a required piece of information:

See, "Groundwater Monitoring Program Results - June 2017", dated November 28, 2017.

SECTION 17 - DATA QUALITY ASSESSMENT

Submit (attached to this form) any required data quality assessment reports. List submissions (required by this section) that have been attached to this form or the reasons for not attaching a required piece of information:

See, "Groundwater Monitoring Program Results - June 2017", dated November 28, 2017.

SECTION 18 - SUMMARIES OF MONITORING DATA

Submit (attached to this form) a summary of the water quality information presented in Sections 15 and 16 for the year of operation for which the Annual Report is made, noting any changes in water quality which have occurred throughout the year. List submissions (required by this section) that have been attached to this form or the reasons for not attaching a required piece of information: See, "Groundwater Monitoring Program Results – June 2017", dated November 28, 2017.

SECTION 19 - SURFACE IMPOUNDMENTS

Does this landfill have a surface impoundment?

Yes No If yes, repeat Sections 12 through 16 above for Quarterly Reports and Section 18 above for Annual report. Attach additional submissions required by this section.

SECTION 20 - PERMIT/CONSENT ORDER REPORTING REQUIREMENTS

Are there any additional permit/consent order reporting requirements not covered by the previous sections of this form?

Yes No If yes, attach additional sheets identifying the reporting requirements with their respective responses.

SECTION 21 - SIGNATURE AND DATE BY OWNER OR OPERATOR

Owner or Operator must sign, date and submit one completed form with an original signature to the appropriate Regional Office (See attachment for Regional Office addresses and Solid Waste Contacts.)

The Owner or Operator must also submit one copy by email, fax or mail to:

New York State Department of Environmental Conservation Division of Materials Management Bureau of Permitting and Planning 625 Broadway Albany, New York 12233-7260 Fax 518-402-9041 Email address: SWMFannualreport@dec.ny.gov

I hereby affirm under penalty of perjury that information provided on this form and attached statements and exhibits was prepared by me or under my supervision and direction and is true to the best of my knowledge and belief, and that I have the authority to sign this report form pursuant to 6 NYCRR Part 360. I am aware that any false statement made herein is punishable as a Class A misdemeanor pursuant to Section 210.45 of the Penal Law,
