Dear NYSDEC officials:

The Fulton County Department of Solid Waste is hereby submitting its annual Transfer Facility Annual Reports and the Recyclables Handling & Recovery Facility Reports, 2021. Please be advised that each individual report for the eight registered stations operated by Fulton County through this department, also serves as the 2021 annual Recyclables Handling & Recovery Facility annual reports.

The reasoning for this is that the RH&RF report calls for enumerating recyclables collected at these stations by month, whereas the transfer station report only requires enumeration by the total year. In utilizing the "Other" line within the Registered Transfer Facility report, each month's totals are incorporated, fulfilling that (and with the exception of one statistic noted below), all other requested information for the RH&RF report. We have also incorporated each Transfer Station Registration Number, and each Transfer Station Recyclables Handling & Recovery Facility number on each report, along with the expiration date of each.

The only piece of information required by the RH&RF report that is not listed anywhere on the Registered Transfer Facility annual report is residue generated. Since all recyclables at each station are brought to the Fulton County Materials Recovery Facility (MRF) and packaged for transport to the Oneida-Herkimer Solid Waste Authority MRF, there is no residue figure calculated specifically for Fulton County or its individual transfer stations. Therefore, that answer would have been noted as N/A.

Due to the above, Fulton County asserts that all required information for both reports has been submitted.

Sincerely,

Cindy G. Livingston
Deputy Director

Conservation
