Re: Permit # 1-4738-00028/00033 Annual Report of Waste Water Processing  
Building 111 Effluent Decontamination System

Dear NYSDEC Representative,

This letter serves as the Plum Island Animal Disease Center's annual report for the Building 111 Effluent Decontamination System (EDS) operated under permit 1-4738-00028/00033. The EDS processes sanitary waste from Laboratory 101 using a batch process. This report is for the reporting period starting January 1, 2020 and ending December 31, 2020.

For this reporting period, PIADC processed **15,909,300** gallons of effluent through the Building 111 EDS.

Please contact me at (631) 323-3045 or [Thomas.Dwyer@st.dhs.gov](mailto:Thomas.Dwyer@st.dhs.gov) if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Tom Dwyer".

Tom Dwyer  
PIADC Environmental Protection Specialist
