Re: Inspection on February 2, 2022

February 21, 2022

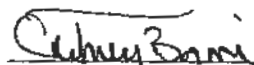

Dear Ian MacColl,

Following the inspection performed on February 2, 2022. We have immediately addressed each concern raised in your February 9<sup>th</sup>, 2022, Notice of Violation. Please see below for each measure that has been taken.

- 1) Refrigerant Recovery Machine had been placed indoors to prevent from freezing in low temperatures. BMP's are in place for removal.
- 2) Ice cleared away from water separator area creating stormwater/ice/snowmelt to flow away from driveway and large absorbent sock placed at the top of driveway. During next construction season we will construct more defined berm at the top of driveway as well; SWPPP will be modified to show this change.
- 3) Tiny leak of petroleum from dropped engine immediately cleaned up by staff using absorbent mats and speedy dry.

Attached are pictures to correlate with all practices above. ECO Eyler, it is my assumption that no appearance is required by the company tomorrow in Town court as we have addressed all the matters and have provided this information to Ian in this email. Please contact me at 845-723-4151 or my email [courtney@baronirecycling.com](mailto:courtney@baronirecycling.com) if you need anything more.

Sincerely,
